## CORPORATE ACTION NOTICE

### Options:

- **Lot Size:** The lot size will be divided by the ratio. The adjusted lot size will be specified in the Final Notice. The rounding difference will be neutralised by means of an **equalisation payment**.
- **Exercise Prices:** The exercise prices will be multiplied by the ratio. The adjusted exercise prices will be specified in the Final Notice.
- **New Contract:** In such case that the ratio will result in a lot size exceeding the standard lot size (100), a new contract will be introduced with the contract code **IMM**. The contract **IM** will have the standard lot size of 100 shares per contract.
- **Multiplication of positions:** In such case that the ratio will result in a lot size exceeding a multiple of the standard lot size (100), then positions in contract **IM** will be multiplied and the remaining lot size exceeding the multiple of the standard lot size will be the lot size of the O-class contract **IMM**. The lot size of the O-class contract cannot exceed the standard lot size (100).

### 5. Outstanding orders:

- All outstanding orders for **IM** will be cancelled automatically after the end of the trading session on 4 July 2013. The priority of these orders will then be lost. New orders in the **IM** contract (lot size 100) and **IMM** (O-class) can be submitted as from 5 July 2013.

### 6. Further Series: No new series shall be introduced in the **IMM** contract.
