### INTRODUCTION OF WEEKLY OPTION CLASSES

#### Executive Summary

Euronext will add weekly option classes on eleven underlying values on the Paris Derivatives Market and invites Members to apply for Liquidity Provider roles. The new weekly option classes will be available for trading as from Friday 12 August 2016.

#### 1. Introduction

- 1.1 Euronext Paris will introduce weekly option classes with an initial lifetime of two weeks on 11 underlying values as from 12 August 2016. The weekly options will have the same standard contract specifications as the existing Individual Equity Options; the only difference is their lifetime.
- 1.2 Four separate option classes per underlying value will be introduced. Each class will have a fixed last day of trading, this is either the first Friday of the month, the second Friday of the month, the fourth Friday of the month or, when applicable, the fifth Friday of the month. The trading symbol of each Weekly option class consists of a number and two letters. The number indicates which Friday of the month will be the last Trading Day. Furthermore, a successful applicant's status, and therefore the period for which the Liquidity Provider may receive financial benefits, may

- 3.9 In the event that any business which may rise to a benefit under the terms of this programme may also qualify as business undertaken by the Liquidity Provider giving rise to a benefit under any other Exchange liquidity provision, market making or other similar programme or arrangement, Euronext reserves the right in its absolute discretion to take one or more of the following actions:
- Withhold the credit of any further rebates otherwise due under the programme.
