

AMSTERDAM NOTICE NO. 13/003

Issue Date: 10 April 2013

Effective Date: 23 April 2013

INTRODUCTION OF OPTIONS ON NSI N.V.

Executive Summary

NYSE Liffe hereby announces that trading in options on NSI N.V. (option trading symbol: NSI) will start on 23 April 2013. Further details are provided below.

1. NYSE Liffe will launch options on shares in NSI N.V. (option trading symbol: NSI) on the Amsterdam derivatives market on 23 April 2013 (see attachment 1 for contract specifications). Classes are grouped into class combinations (ECCs). The new option class will be introduced as a new ECC, although it should be noted that no other option classes will be added to the ECC¹.
2. NYSE Liffe will select up to three Primary Market Makers (PMMs) and nine Competitive Market Makers (CMMs) for the new ECC on the basis of applications received from members. They are invited to apply for positions, specifying the specific obligation level they wish to take on. These obligation levels are determined by NYSE Liffe.
3. The obligations and benefits of liquidity providers are described in Amsterdam Notice No. 12-030, which is available on our website (www.nyx.com/elps under the Stock Options and Amsterdam headings). On the same page members can also find the document "Selection procedure ELPS – New individual Listings", which contains details of the selection procedure. The "obligation levels" which the application form refers to, can also be found on the same webpage. Please note that this selection procedure differs from the one used for existing classes.
4. The liquidity provider agreement will be valid from 23 April 2013 up to and including 31 October 2013.
5. Applicants can download the application form from our website (www.nyx.com/elps under the Stock Options and Amsterdam headings). The application form should be completed and sent to our EMS Liquidity Provision department via fax (+31 (0)20 550 5101) or email (ELPS@nyx.com) by no later than 12:00 CET on 15 April 2013. The selection process will take place on 16 April 2013.
