

AMSTERDAM NOTICE NO. 13/007

Issue Date: 17 July 2013
Effective Date: 2 September 2013

INTRODUCTION MINI OPTIONS AND FUTURES ON AEX-INDEX®

Executive Summary

On 2 September 2013 NYSE Liffe will launch options and futures with a small contract size on the AEX-index®. These AEX-index mini options and mini futures will be traded alongside the existing AEX-index options and AEX-index futures.

1. NYSE Liffe will launch options and futures with a small contract size on the AEX-index®. These AEX-index mini options and mini futures will be traded alongside the existing AEX-index options (trading symbol: AEX) and AEX-index futures (trading symbol: FTI). Trading starts on 2 September 2013.
2. **AEX-index mini options**
 - 2.1 The AEX-index mini option (trading symbol: MOA) has a contract size of € 10 times the level of the AEX-index. The trading unit is 10, so to calculate the price of the option the premium has to be multiplied by 10.
 - 2.2 The initial lifetime of listed series ranges from 1 to 3 months. The other contract specifications, like for example exercise price policy or EDSP determination, are equal to the standard AEX-index options (see the attachment for contract specifications). Classes are grouped into class combinations (ECCs). The new option class will be included in the ECC comprising the options class AEX.
 - 2.3 The current PMMs and CMMs of standard AEX-index options will be offered a PMM role in the AEX-index mini option. CMM roles for the AEX-index mini option will not be available. Participation in the AEX-index mini options will not be mandatory. A Member can only fulfil a PMM role in the AEX-index mini option when the Member is also Liquidity Provider in the standard AEX-index option.
 - 2.4 The procedure to apply for a Liquidity Provider role and the obligations & benefits of Liquidity Providers in respect of these mini options will be described in a separate Amsterdam Notice.

3. AEX-index mini futures

- 3.1 The AEX-index mini future (trading symbol: MFA) has a contract size of € 20 times the level of the AEX-index. Each point change of the AEX-index relates to € 20. The quotation is in index points.
- 3.2 The initial lifetime of listed series ranges from 1 to 3 months.
- 3.3 The other contract specifications, like for example EDSP determination, are equal to the standard AEX-index futures (see the attachment for contract specifications).

4. Exchange trading fees

- 4.1 The exchange trading fees are as follows:

Central Order Book	Broker (Client account)	Member (Own account)	Liquidity Provider
