

EURONEXT DERIVATIVES NOTICE

Lisbon Market

NO151022DE3

Issue Date:

22 October 2015

Effective Date:

26 October 2015

AtomX: FLEXIBLE CONTRACT SPECIFICATIONS AND LIST OF FLEXIBLE CONTRACTS

Executive Summary

This notice informs Members of the contract specifications of Flexible contracts and the list of Flexible contracts that will be available on AtomX, Euronext's new off-order book, on-exchange trade reporting service for clients in equity and index derivatives.

1. Introduction

- 1.1 Info-Flash [IF150907DE](#), published on 7 September 2015, announced that the launch date of AtomX is 26 October 2015. This notice informs Members of the Flexible contract specifications and the list of Flexible contracts that will be available on AtomX.
- 1.2 The new service will provide flexibility for investors by allowing them to tailor derivatives instruments with strike prices, option types, settlement styles and expiry dates (restricted to 3rd Friday at launch) that are not available on the central order book, and to report trades through either a web interface or a dedicated electronic connection. Clients can also benefit from the capital and operational efficiencies of clearing flexible trades in the same clearing pool as their existing Euronext positions.

2. Contract specifications Flexible Options and Futures

- 2.1 The contract specifications for Flexible Options and Futures can be found in attachment 1.

3. List of Flexible contracts

- 3.1 The list of Flexible contracts that will be available on AtomX can be found in attachment 2.

4. Onboarding

Members who wish to access the AtomX solution must:

- 4.1 fill out and return the '[Request for Extension of Trading Activity form](#)' to the Euronext Membership department
- 4.2 request an electronic certificate and credentials from Euronext's Customer Access Services (CAS) team
- 4.3 sign the updated Trading Platform Agreement (TPA).
