NEW REFERENCE RATES FOR THE SETTLEMENT OF CURRENCY DERIVATIVES

Executive Summary

This Notice informs Members of the new reference rates for the settlement of the Euronext currency derivatives as from 19 June 2015.

1. Introduction

Euronext hereby announces that the Euro foreign exchange reference rates of the European Central Bank (ECB) will be used as the settlement basis of the Euronext currency derivatives as from 19 June 2015. As a result of this change, the trading hours on the last trading day of the currency derivatives that expire will be extended from 13:00 CET to 14:15 CET to correspond with the time when the ECB reference rates are set.

2. Euro foreign exchange reference rates

The reference rates are usually updated by 15:00 CET on every working day, except on TARGET closing days. They are based on a regular daily concertation procedure between central banks across Europe and worldwide, which normally takes place at 14:15 CET. <https://www.ecb.europa.eu/stats/exchange/eurofxref/html/index.en.html>

3. Last Trading Day

Trading in expiring currency derivatives ends at 14:15 CET on the third Friday of the expiration month, provided this is a business day. If it is not, the previous business day shall be the last day of trading.

4. Currency Derivatives classes

The currency derivatives classes available on the Euronext derivatives market are the following:
