7. Selection of LPs

- 7.1. NYSE Liffe will select LPs with a view to maximizing the quality of the market in the futures and options on the AMX-index. Liquidity providers will be selected on the basis of:
- the quality of their market making in other Exchange-operated schemes, where applicable; and
 - the technological and human resources to be allocated to the market making activity.
- 7.2. NYSE Liffe will select up to three PMMs for the AMX futures; there will be no CMM positions. A maximum number of three PMMs and nine CMMs will be appointed for the AMX options. If, having completed the initial appointment process, some LP roles have not been taken, the remaining positions will be held open for the remainder of the program period and may be filled during that period by subsequent appointments.

8. Discretionary authority

- 8.1. NYSE Liffe, in its absolute discretion, may create additional role(s) during the selection process and contract period if it deems in the best interest of the market. NYSE Liffe may decide to deviate from the selection procedure in appointing Liquidity Providers for the possible additional role(s).
- 8.2. NYSE Liffe reserves the right to terminate at any time on notice with immediate effect the role of any Liquidity Provider in part or all of the ELPS Amsterdam program if it believes, in its absolute discretion, that actions undertaken or being undertaken by that Liquidity Provider or any affiliate of the Liquidity Provider undermine or are likely to undermine the integrity and quality of the Amsterdam market, considering, without limitation, the following characteristics of the market which the ELPS Amsterdam program is designed to foster; price competition, full screens and tight prices. In the event of such termination, NYSE Liffe reserves the right to fill or not to fill any resulting vacancies for Liquidity Provider roles; if it is decided to fill such vacancies this shall be done in accordance with the ELPS selection procedure.

9. For the avoidance of doubt, NYSE Liffe's decision about the selection of Liquidity Providers is final.
10. Any LP encountering technical problems which could prevent it from complying with its obligations must inform NYSE Liffe Market Services by telephone as quickly as possible (+44 (0)20 7379 2001). Once the technical issue has been resolved, the LP concerned may send a request for its performance measurement to be adjusted, along with the description of the problem and the solution, by email to ELPS@nyx.com. NYSE Liffe will decide whether or not there are sufficient grounds for making an adjustment to the calculation of the market maker's monthly performance.
11. Applicants should complete the Application Form available on the NYSE Euronext website (www.nyx.com/elps under the Stock Indices and Amsterdam headings). The Application Form should be sent to the Quality of Derivative Markets department via fax (+31 (0)20 550 5101) or email (ELPS@nyx.com) by no later than the close of business on 9 March 2012 for the AMX futures and 2 April 2012 for AMX options.
12. Members are reminded that the appointment of each LP will be subject to a binding contract ("the Agreement") between the successful applicant and the Exchange. A completed application form does not constitute an Agreement. Furthermore, a successful applicant's LP status, and therefore the period for which the LP may receive financial benefits, may not be deemed to have commenced until the Agreement is completed and signed by all parties.
