James Dewhurst is currently active in six industry sectors, Building and Construction, Industrial, Geotextiles, Health and Hygiene, Packaging and Transport.

*Scrims are fabrics with an open, lattice construction enabling them to combine strength with low weight.

Update outlook Sioen Industries Group 2017

The recently acquired companies are well on track to meet expectations.

However, strong economic performance currently boosts a worldwide revival of the raw materials markets affecting Sioen Industries Group's short term financial performance. To mitigate these effects, price increases in sales prices are being implemented.
