

## ISO 13485:2012 Certification renewed

***I.CERAM, specialized in innovative orthopedic implants and ceramic implants with a great biocompatibility has obtained the renewal of its ISO 13485:2012 COFRAC certification in relation with its quality system management, for its medical devices and associated services.***

Since its origin, I.Ceram's main goals are its customer satisfaction and the respect of norms and legislation. Thus, the society implemented a rigorous quality system in order to provide a complete security and excellence for its products, from their design to their delivery.

The audit performed by ABcertification validates the conformity of I.Ceram quality system management in regards to ISO 13485:2012 COFRAC dedicated to medical devices industry.

The renewal of this international norm, prerequisite to CE marking, fits into I.Ceram development planning and testifies the high level of its quality system.
