About KKO INTERNATIONAL

World production of cocoa, nowadays mainly small scaled, does not allow food industrials/manufacturers to be supplied with consistent quality and quantity. KKO INTERNATIONAL, pioneer in intensive agriculture, brings an ingenious solution to the growing global demand. In less than 3 years, the staffs of SOLEA, production subsidiary of KKO INTERNATIONAL based in Ivory Coast, have managed to develop innovative agricultural techniques, including a dripping irrigation system at the foot of each plant, significantly improving the production of cocoa beans. With a strong local involvement, the company is a socially responsible business model (RainForest Alliance Certification) and holds a surface of 2 399 hectares including 1 549 hectares in operation. As Africa's largest cocoa plantation, SOLEA aims to grow 3000 hectares to produce a high-quality cocoa bean year-round. SOLEA is thus set to become a natural and favorite partner of the chocolate industry.
