HRS RECEIVES ORDER FOR HYDROGEN REFUELING STATION FOR A BUS DEPOT

Grenoble, December 20, 2022 - HRS, a leading European designer and manufacturer of hydrogen refueling stations, has been selected to supply, install, and maintain a 330 kg/day hydrogen refueling station for a French agglomeration. Commissioning is scheduled for 2023.

HRS will design, supply and install a refueling station specific to the agglomeration's call for tenders, for a total amount of approximately €3m. This station, which will distribute hydrogen, linked to a number of storage facilities, will have the capacity to **simultaneously refuel a fleet of hydrogen buses.**

This most recent success for **HRS** in France consolidates the Company's position as the leading French supplier of hydrogen refueling stations.

Hassen Rachedi, HRS Founding, Chairman and CEO, said: *"This large-scale project contributes fully to the development of the hydrogen industry in France. HRS is proud to be part of a new project serving one of the main urban agglomerations, pioneer in the energy transition. This is further recognition of our expertise and ability to support all public and private sector players in developing hydrogen's role in mobility."*
