(“Accsys”, the “Group” or the “Company”)

**Trading Update**  
**Continued progress in delivering FOCUS strategy**

Accsys, the world’s leading supplier of premium, high performance and sustainable wood building materials, today provides an update on full year performance for the year ended 31 March 2025 (“FY25”). All numbers in this announcement are unaudited.

Accsys is pleased to announce a strong performance for FY25 and expects to deliver results for the year in line with previously upgraded market consensus<sup>1</sup>. This evidences continued progress in delivering on Phase 1 of its FOCUS strategy.

At the recent Investor Strategy Day, Accsys outlined its FOCUS strategy, which is split into three key phases. In Phase 1 “Transform and Improve” (FY24-27), the Group’s focus is on driving sustainable, profitable growth from existing assets, maintaining a lean and efficient cost structure and debt reduction, with a run rate sales volume of 100,000m<sup>3</sup> at the end of FY27. Phase 2 “Optimise” (FY28-30) will focus on implementing operational efficiencies to deliver the full capacity of the two plants, with a continuous focus on debt reduction driven by strong free cash flow generation. In Phase 3 “Grow” (FY30+), the Company plans to pursue further growth opportunities supported by a strong balance sheet.

- Strong product demand against a challenging market backdrop, with double digit year-on-year Accoya sales volume growth across all geographic regions - UK&I, Rest of Europe, North America, Rest of World
  - 13% year on year growth in total Accoya sales volumes of 63,864m<sup>3</sup>

- 16% year on year growth in North America sales volumes, demonstrating the strong market opportunity for the Accoya USA joint venture, which had a successful operational ramp up
- The Company expects FY25 Adjusted Group EBITDA<sup>4</sup> to be in line with previously upgraded market consensus
- Net debt of €42.6m as at 31 March 2025 represents an increase of €2.4m compared to 30 September 2024. This was driven by planned investment in the USA joint venture, higher inventory levels, ensuring product availability to support strong demand and high levels of customer service, offset by the elimination of non-recourse debt in Tricoya UK Ltd
- Funding in place to support growth prospects:
  - The Company has signed an 18-month extension to its primary debt facilities with ABN Amro extending the maturity to 30 September 2027
- Tricoya UK Ltd, the Accsys subsidiary company established for the construction and operation of the Hull Tricoya plant, was placed into voluntary liquidation on 17 December 2024

## **Tariffs**

- The Company is continuing to monitor developments with regards to US tariffs. Currently, tariff exemptions are in place for lumber imports into the US and the Company's US manufacturing plant enables Accsys to serve US customers with locally manufactured product

## **Dr Jelena Arsic van OS commented:**

“Since outlining our strategic objectives in January, our focus has firmly shifted to execution—and I’m pleased to report we are delivering. This strong trading update confirms we are firmly on track with Phase I of our FOCUS Strategy, driving sustainable, profitable growth.

Accsys represents a compelling investment case: a de-risked capital expenditure profile, protected intellectual property, and world-class products. With our manufacturing strength in Europe and successful commercialisation of our US plant, we are well positioned to seize a significant global market opportunity. Moreover, we remain a focused industry disrupter with the purpose of ‘Changing wood to Change the World’.”

The Company’s financial results for the year ended 31 March 2025 are expected to be announced on the 24 June 2025.
