Forward-Looking Statements

This document contains statements, estimates or projections that constitute "forward-looking statements" concerning the financial condition, performance, results, guidance and outlook, dividends, consequences of mergers, acquisitions, joint ventures, divestitures, strategy and objectives of Coca-Cola Europacific Partners plc and its subsidiaries (together CCEP or the Group). Generally, the words "ambition", "target", "aim", "believe", "expect", "intend", "estimate", "anticipate", "project", "plan", "seek", "may", "could", "would", "should", "might", "will", "forecast", "outlook", "guidance", "possible", "potential", "predict", "objective" and similar expressions identify forward-looking statements, which generally are not historical in nature.

Forward-looking statements are subject to certain risks that could cause actual results to differ materially. Forward-looking statements are based upon various assumptions as well as CCEP's historical experience and present expectations or projections. As a result, undue reliance should not be placed on forward-looking statements, which speak only as of the date on which they are made.

Factors that, in CCEP's view, could cause such actual results to differ materially from forward looking statements include, but are not limited to, those set forth in the "Risk Factors" section of CCEP's 2024 Annual Report on Form 20-F filed with the SEC on 21 March 2025 and subsequent filings, including, but not limited to: changes in the marketplace; changes in relationships with large customers; adverse weather conditions; importation of other bottlers' products into our territories; deterioration of global and local economic and political conditions; uncertainty and volatility from the impact and extent of actual and promised tariff adjustments; increases in costs of raw materials; changes in interest rates or debt rating; deterioration in political unity within the European Union; defaults of or failures by counterparty financial institutions; changes in tax law in countries in which we operate; additional levies of taxes, including tariff adjustments; legal changes in our status; waste and pollution, health concerns perceptions, and recycling matters related to packaging; global or regional catastrophic events; cyberattacks against us or our customers or suppliers; technology failures; initiatives to realise cost savings; calculating infrastructure investment; executing on our acquisition strategy; costs, limitations of supplies, and quality of raw materials; maintenance of brand image and product quality; managing workplace health, safety and security; water scarcity and regulations; climate change and legal and regulatory responses thereto; other legal, regulatory and compliance considerations; anti-corruption laws, regulations, and sanction programmes; legal claims against suppliers; litigation and legal proceedings against us; attracting, retaining and motivating employees; our relationship with TCCC and other franchisors; and differing views among our shareholders.

Due to these risks, CCEP's actual future financial condition, results of operations, and business activities, including its results, dividend payments, capital and leverage ratios, growth, including growth in revenue, cost of sales per unit case and operating profit, free cash flow, market share, tax rate, efficiency savings, achievement of sustainability goals, including net zero emissions and recycling initiatives, capital expenditures, may differ materially from the plans, goals, expectations and guidance set out in forward-looking statements. These risks may also adversely affect CCEP's share price. CCEP does not undertake any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise, except as required under applicable rules, laws and regulations.
