MANAGEMENT REPORT

The consolidated financial information disclosed in this report is based on unaudited financial statements, prepared in accordance with the International Financial Reporting Standards (IAS/IFRS), issued by the International Accounting Standards Board (IASB), as adopted by the European Union.

Main Highlights

Key Performance Indicators

EBITDA remained stable at €16.9m in 1Q26.

Direct results remained solid at €18.5m in 1Q26, supported by a €20.0m contribution from NOS.

Net income attributable to shareholders increased to €21.5 million in 1Q26, compared to €13.7 million in 1Q25.

Bright Pixel's active portfolio **NAV** stood at €321 million, at the end of 1Q26.

Capital structure remains robust, with a Net Cash position of €202.3m.

Consolidated Results

Key data

€m	1Q25	1Q26	yoy
Turnover	3.9	3.9	0.7%
EBITDA	16.9	16.9	0.3%
o.w. Equity method ⁽¹⁾	19.8	20.0	1.3%
Direct Results	18.6	18.5	(0.6)%
Indirect Results ⁽²⁾	(5.0)	3.0	-
Net Income Group Share	13.7	21.5	57.4%
Net Debt / (Cash)	(170.6)	(202.3)	(18.5)%

(1) Includes the 50% holding in Unipress, the 50% holding in SIRS and the 37.37% holding in NOS;

(2) Includes equity method related with NOS, AVP funds, and fair value adjustments related with ZAP and other minority stakes, net of taxes.

Consolidated turnover totalled €3.9m in 1Q26, representing a 0.7% year-on-year increase.

EBITDA remained broadly stable at €16.9m in 1Q26, reflecting a lower underlying operating contribution, offset by the positive performance of equity-accounted investments.

Equity method contributions increased to €20.0 million in 1Q26, from €19.8 million in 1Q25, mainly reflecting the positive evolution of NOS net income.

Direct results remained solid at €18.5 million in 1Q26, broadly in line with the €18.6 million recorded in 1Q25, supported by the resilient contribution from NOS.

Indirect results amounted to €3.0 million in 1Q26, compared to negative €5.0 million in 1Q25. The favourable year-on-year evolution was primarily driven by positive foreign exchange effects in the period, contrasting with the adverse FX impact recorded in 1Q25, which affected the valuation of Bright Pixel's portfolio assets.

As a result, **Net income** attributable to shareholders increased to €21.5 million in 1Q26, compared to €13.7 million in 1Q25, largely reflecting the improvement in indirect results.

The balance sheet remained robust, with a **net cash position** of €202.3 million at the end of 1Q26. This compares with €205.8 million at year-end 2025, with the variation mainly reflecting: (i) €1.5 million of net investments in Bright Pixel's portfolio (investments net of proceeds); and (ii) positive operating cash flow, financial activity and taxes amounting to €2.2 million.

Consolidated Balance Sheet

€m	31.03.2025	31.12.2025	31.03.2026

(1) FCF Levered after Financial Expenses but before Capital Flows and Financing related up-front Costs.

NOS

NOS delivered a solid operational and financial performance in 1Q26, supported by the resilience of its diversified business model and the continued execution of its transformation programme.

Consolidated revenues increased by 1.9% yoy to €460m, driven by the strong performance of the IT segment and Cinema and Audiovisuals, more than offsetting a slight decline in Telecommunications, partly impacted by temporary weather-related effects. Consolidated EBITDA increased by 3.1% to €203m, with margin improving by 0.5pp to 44.2%, supported by efficiency measures. Free cash flow generation remained strong, increasing €8m yoy (€15m excluding non-recurring items), reflecting higher profitability and lower capital intensity. Further details are available on the company's website [here](#).

In Sonaecom's consolidated accounts, NOS's contribution under the equity method amounted to €20m in 1Q26.

In April, NOS held its AGM and approved a dividend of €0.45 per share (€0.35 ordinary and €0.10 extraordinary) relating to 2025 earnings, paid in May and resulting in €86.6m cash-in for Sonaecom.

Operating Revenues
(€m)

EBITDA (€m, %)

Bright Pixel

During 1Q26, Bright Pixel recorded net capital deployment of €1.5m, reflecting new investments partially offset by proceeds from a previous portfolio divestment.

The evolution of Cash invested in the active portfolio reflected new investments completed during the quarter, as well as the reclassification of an investment to the inactive portfolio following its entry into liquidation.

NAV and Cash invested in the active portfolio stood at €321 million and €242 million, respectively, corresponding to an implied cash-on-cash multiple of approximately 1.3x on the existing portfolio.

NAV increased by approximately €3 million during the quarter, mainly driven by new investments and favorable foreign exchange movements, partially offset by valuation adjustments in certain portfolio assets.

Bright Pixel maintained its investment strategy during the quarter, continuing to assess a diversified pipeline of potential investment opportunities, while remaining disciplined in capital allocation and applying an increasingly selective and rigorous approach to the evaluation of new investment targets.

Cash Invested in the
active portfolio (€m)

NAV (€m)

Note: 1Q25 figures were restated to comparability with the 2026 data, reflecting the effects of the acquisition of Claranet Portugal.

Bright Pixel Portfolio information

(Non exhaustive)

CYBERSECURITY

Arctic Wolf, a US based company, is a global pioneer in the SOC-as-a-Service market with cutting-edge managed detection and response (MDR), which provides a unique combination of technology and services for clients to quickly detect and contain threats. Bright Pixel, jointly with US technology investors Lightspeed Venture Partners and Redpoint, entered in the company's cap table in 2017 in a series B round. Since then, the company closed a \$45m series C round in 2018, a \$60m series D round at the end of 2019, a \$200m series E round in October 2020 funding at a valuation of \$1.3bn and, in 2021, a \$150m, held by existing and new investors, at an underlying valuation of \$4.3bn.

Jscrambler is a Portuguese startup that develops a security solution to protect Web and Mobile Applications (Javascript code). In 2018, the company raised a \$2.3m in a financing round that was led by Bright Pixel with the co-investment of Portugal Ventures. In 2021, the Company raised €10m in a series A with the participation of Ace Capital Partners.

Safebreach, pioneer in the Breach and Attack Simulation (BAS) market, is the world's most widely used continuous security validation platform. The patented platform automatically and safely executes thousands of attack methods to validate network, endpoint, cloud, container and email security controls against its Hacker's Playbook™, the world's largest collection of attack data broken down by methods, tactics and threat actors. SafeBreach raised \$53.5m in series D funding, led by Bright Pixel and Israel Growth Partners (IGP), with additional participation from Sands Capital, Bank Leumi and ServiceNow.

Hackuity, is a risk-based vulnerability management solution that empowers cybersecurity teams and leaders to comprehensively collect, prioritize, and remediate security weaknesses before they can be exploited by their adversaries. Hackuity raised a €12m funding round, led by Bright Pixel with the participation of previous investor Caisse des Dépôts.

VanishID (former PicNic), is the creator of the industry's first automated enterprise-wide human attack surface management platform. Energy Impact Partners and Bright Pixel, with continued participation from existing investors Crosslink Capital and Rally Ventures, led the extension of its series A funding in 1Q23. In 2025, announced its rebrand from Picnic Corporation and a recent \$10m investment led by Dell Technologies Capital and joined by Mark McLaughlin, former CEO and Chairman of Palo Alto Networks, with continued strong participation from Crosslink Capital, Rally Ventures, Energy Impact Partners, and Bright Pixel. LockStep Ventures also joined this funding round.

Sekoia.io, is the European cybertech company that develops the Sekoia.io XDR (eXtended Detection & Response) platform for real-time detection of cyberattacks. The company has raised €35m, in 2023, in a series A, financing round from Banque des Territoires, Bright Pixel and its historical investors Omnes Capital, Seventure and BNP Paribas Développement. In 2025, announced a €26m series B round led by Revaia, with participation from UNEXO and the support of its existing investors Bright Pixel Capital, Omnes Capital and Bpifrance.

Vicarius is a SaaS platform that consolidates vulnerability discovery, prioritization, and remediation in a single solution. In 2023, the company raised a \$30m series B led by Bright Pixel and participated by AllegisCyber Capital, AlleyCorp, and Strait.

Tamnoon is the first and only human-AI managed service developed from the ground up specifically for cloud security remediation. In September 2024, raised \$12m in a series A round led by Bright Pixel with participation by new investors Blu Ventures and Mindset Ventures as well as existing investors Merlin Ventures, Secret Chord Ventures, Inner Loop Capital, and Elron Ventures.

Trustero is a Silicon Valley innovator in AI-powered Security and Compliance that help businesses that need to prove they follow cybersecurity and data protection standards. In 2024, closed a \$10.35m series A funding round led by Bright Pixel, with participation from existing investors Engineering Capital, Zetta Ventures Partners, and Vertex Ventures US.

Knostic is the world's first provider of need-to-know access controls for Generative AI. It helps businesses securely use AI tools by controlling who can access what information, preventing unauthorized data sharing. In 2024, raised a \$11m round led by Bright Pixel with follow-on investments from new and previous investors such as Silicon Valley CISO Investments (SVCI), DNX Ventures, Seedcamp, and angel investors.

Tidal is a Virginia-based cybersecurity provider pioneering Threat-Led Defense, that has raised \$10m in series A financing round in 2025. The investment was led by Bright Pixel, with participation from existing Tidal Cyber investors, USAA, Sudra, Capital One, Veteran Ventures, Task Force X, and Ultratech.

Mesh Security is a US based cybersecurity company developing an execution layer for Cybersecurity Mesh Architecture, enabling enterprises to orchestrate and automate security operations across complex environments. Bright Pixel invested in the company in 2025, participating in its US\$12 million series A round as part of its continued focus on advanced cybersecurity solutions.

RETAIL TECH

InnovRetail is a retail innovation company that provides data science solutions and digital tools that deliver quantifiable insights and actionable recommendations with direct and sustainable impact on retailer's key metrics. The company's main product is Seeplus, an Order Delivery System designed to maximise efficiency and boost customer satisfaction. It expertly handles orders from inception to delivery, optimising tracking and reducing delays to provide an unparalleled shopping experience.

Ometria is a London based AI powered customer marketing platform with the vision to become the central hub that powers all the communication between retailers and their customers. This investment was done by Bright Pixel in the series A round, alongside several strategic investors (including Summit Action, the US VC fund of the Summit Series) and was reinforced during series B and C rounds.

Nextail is a Spanish company that has developed a cloud-based platform that combines artificial intelligence and prescriptive analytics to upgrade retailers' inventory management processes and store operations. The company raised a \$10m series A round led by London and Amsterdam based venture capital firm KEEN Venture Partners LLP ("KEEN"), together with Bright Pixel and existing investor Nauta Capital. The new financing was to be used to accelerate product development and double the size of the team, as it grows internationally.

Sales Layer is a Spanish based company with a cloud-based Product Information Management (PIM) platform, helping brands and retailers to transform their catalogs into a digital, enriched and multichannel control center. Bright Pixel led its series A round and recently participated in its series B round.

Sellforte, based in Helsinki, Finland, is a SaaS platform for Retailers, Brands and Telcos, which uses proprietary data science and AI to measure the effectiveness of online and offline marketing investments.

Citcon, is a US-based leading mobile wallet payment provider with a fintech platform that enables seamless global commerce at scale by connecting the world's businesses with more than 100+ mobile wallets, local and alternative payment methods. Citcon raised \$30m in series C financing led by Norwest Venture Partners and Cota Capital with the participation of Bright Pixel and Sierra Venture.

Afresh, is a US-based leading AI-powered fresh food technology provider. Afresh's AI-powered solutions optimize critical functions in fresh food, including ordering, inventory, merchandising, and operations. Afresh significantly reduces food waste, improves its partners' profitability, and makes fresher, healthier food more accessible to all. Afresh announced a \$115m series B funding round led by Spark Capital and with participation from Insight Partners, VMG Partners, and Bright Pixel.

Chord, is a US based company with a Platform as a Service that offers commerce businesses technology and data products that help enhance their businesses by giving them cutting-edge headless commerce technology and access to meaningful first-party data. In 2022, Chord raised a \$15m series A extension round, co-led by Bright Pixel and existing investor Eclipse and with new investors GC1 Ventures, TechNexus Venture Collaborative and Anti Fund VC joining existing investors Imaginary Ventures, Foundation Capital and White Star Capital as participants.

Harmonya offers an AI-powered product data enrichment, categorization, and insights platform for retailers and brands. The company raised \$20m series A round in 2023, led by Bright Pixel with the participation of existing investor Team8, as well as Arc Investors, J Ventures, Silicon Road Ventures, Allen & Company, LiveRamp Ventures, and Susa Ventures. Already in 2025, the company announced a strategic investment from Dunnhumby Ventures and its existing investors, Bright Pixel Capital and Team8.

KeyChain is the AI-powered platform that helps brands and retailers quickly find the right manufacturers to produce their products. Bright Pixel invested \$5m at the end of 2024, bringing the total company's funding to \$38m with support from leading venture firms BoxGroup, Lightspeed Venture Partners, and SV Angel as well as other CPG giants General Mills, The Hershey Company, and Schreiber Foods. During 2025, the company raised a \$30m series B round, in which Bright Pixel participated, and launched Keychain OS, an AI Operating System Set to Power the Future of CPG Manufacturing.

Brij is the AI-powered platform that helps consumer brands redefine omnichannel enablement by unlocking and monetizing offline customer relationships. The company closed an \$8m oversubscribed investment round led by Bright Pixel and CEAS Investments, with participation from Artemis Fund, Red Bike Capital, Lakehouse Ventures, and Forum Ventures, as well as strategic angels from leading consumer brands including Caraway, Brunt Workwear, and Feastables.

Duel is the leading Brand Advocacy platform helping leading retail brands grow through their own fan and creator communities instead of traditional advertising. The company raised \$16m in a series A round co-led by Bright Pixel and Molten Ventures, alongside existing investor Peter Bauer, founder of Mimecast.

INFRASTRUCTURE SOFTWARE

Portainer.io, based in New Zealand, is one of the most popular container management platforms globally. Portainer's universal tool unleashes the power of containerized applications for everyone.

Codacy, is a PT-based automated code review and engineering productivity tool. It provides intelligence for software engineering teams to reach their full potential. Codacy raised a \$15m series B funding round led by Bright Pixel, also backed by existing investors Armilar Venture Partners, EQT Ventures, Join Capital, Caixa Capital, Faber Ventures and Iberis Capital.

Jentis, is an Austrian scale-up specializing in advanced server-side web tracking and data protection technologies. Its Data Capture Platform is an all-in-one tracking solution that provides businesses enhanced data quality and data sovereignty while enabling compliance with GDPR and other global data protection regulations. Bright Pixel led a €11m in a series A funding round raised in 2023. This round was also participated by the new co-investor 3TS Capital Partners, and by the existing investor Pragmatech Ventures.

FlowFuse is a leading company in the industrial digitalisation movement, empowering businesses to modernize operations through low-code automation and scalable IoT solutions. The company closed in 2025 a \$7.2m investment round led by Senovo, with participation from Bright Pixel, Uncorrelated, Westwave, and Open Core Ventures.

HiveMQ is a German enterprise-grade platform that enables secure, real-time data movement across millions of IoT devices. In 2025, Bright Pixel participated in a €25m funding round.

ONA is a US-based technology platform that serves as “mission control” for software development, combining secure cloud development environments with AI-powered engineering agents. In 2025, Bright Pixel co-led a \$15m funding round.

Encord is an AI-native data infrastructure company that enables teams to manage, curate and annotate complex multimodal data — including video, audio, images and sensor data — which is critical for production-grade physical AI systems powering robots, autonomous vehicles and other real-world applications. In 2025, Bright Pixel participated in Encord's US \$60 million series C funding round alongside Wellington Management and other existing investors, reinforcing its strategic exposure to infrastructure that supports the rapid scaling of AI development.

BUSINESS APPLICATIONS

Infraspeak the leading European and South American Intelligent Maintenance Management Platform (IMMP), headquartered in Portugal, has secured a series A extension round of €7.5m, led by Bright Pixel in 2023.

Bria is a leading visual generative AI platform-as-a-service (PaaS) empowering enterprises to create scalable and compliant visual content. In 2025, Bright Pixel invested in an extension of Bria's \$40m series B funding round, led by Red Dot Capital with participation from Maor Investment, Entrée Capital, GFT Ventures, Intel Capital, and In-Venture.

Second Nature is an AI-powered sales training platform that enables large enterprises to train and coach their sales teams through real-time AI-driven coaching and interactive role-play simulations. In 2025, Bright Pixel co-led a \$22m series B round alongside Sienna Ventures, with participation from StageOne Ventures, Cardumen, Signals VC and Zoom Communications Inc.

EMERGING TECH & OTHERS

Didimo, a leading creator of high-fidelity digital humans with 3D technology. Didimo enables anyone to quickly and easily create lifelike digital models that businesses and individuals can use to interact and to provide or enjoy services online. In 2020, Didimo announced €1m in funding from new investors led by Armilar Venture Partners along with Bright Pixel and PME Investimentos in cooperation with the 200M Co-Investment Fund. In August 2022, Didimo raised \$7.1m in series A funding led by Armilar Venture Partners, with the participation of Bright Pixel, Portugal Ventures and Techstars.

Armlar Venture Funds are the 3 Venture Capital funds in which Bright Pixel owns participation units acquired to Novo Banco. With this transaction, concluded in December 2016, Bright Pixel reinforced its portfolio with sizeable stakes in leading edge companies such as Outsystems and Feedzai, both consistently presenting meaningful and sustainable levels of growth.

Media

Público is a leading Portuguese-language news organisation, pursuing a digital-first strategy that combines high editorial standards with a strong and innovative digital presence. The publication continues to reinforce its leadership in the Portuguese daily newspaper market, particularly in digital subscriptions.

In 1Q26, the growth in subscription and advertising revenues supported a slight year-over-year increase in revenues. This performance, combined with continued cost discipline and the growing contribution of recurring subscription revenues, resulted in improved profitability compared to 1Q25.

Subsequent events

On 30th April, Sonaecom, SGPS, S.A. informed about the resolutions taken at the Shareholders' Annual General Meeting, including the approval of annual accounts and the approval of a 0.083 euros/share gross dividend distribution.

SONAECOM, SGPS, S.A.

Notes to the consolidated financial statements for the period ended on 31 March 2026

(Translation of consolidated financial statements originally issued in Portuguese. In case of discrepancy the Portuguese version prevails)

(Amounts stated in euros)

1. Introductory note

1.1 Group's presentation

SONAECOM, SGPS, S.A. ("Company" or "Sonaecom") was established on 6 June 1988, under the name Sonae – Tecnologias de Informação, S.A. and has its head office at Lugar de Espido, Via Norte, Maia – Portugal. It is the parent company of the Group of companies listed in Attachment I ("Group").

Sonaecom SGPS, S.A. is owned directly by Sontel BV and Sonae SGPS, S.A. and Efanor Investimentos SGPS, S.E. is the ultimate controlling company.

Sonaecom shares are listed and traded on Euronext Lisbon.

The Group operates in Portugal and has some subsidiaries in the technology sector operating in about 2 countries (Portugal and Spain).

The consolidated financial statements are presented in euros, rounded to the unit, and the transactions in foreign currencies are included in accordance with the accounting policies detailed below.

1.2 Consolidation perimeter

The companies included in the Sonaecom Group's consolidation perimeter at 31 March 2026 are listed in Attachment I of this report.

1.3. Changes in the Group

During the periods ended on 31 March 2026 and 2025, the following changes occurred in the Group:

a) Acquisitions

Participant	Participated	Date
2026		
Bright Pixel	Crane III LP ("Crane III") - increase	Jan/Feb/Mar-26
Bright Pixel	Merlin Ventures Fund I, L.P. ("Merlin Venture") - increase	Mar-26

Participant	Participated	Date
2025		
Bright Pixel	Harmonya, INC. ("Harmonya") - increase	Jan-25
Bright Pixel	Crane III LP ("Crane III") - increase	Jan/Feb/Mar-25
Bright Pixel	Alter Venture Partners Fund II ("Alter Venture") - increase	Jan-25
Bright Pixel	Sekoia.io ("Sekoia") - increase	Feb-25
Bright Pixel	Nextail Labs, INC. ("Nextail") - increase	Feb-25
Bright Pixel	Automaise, Lda. ("Automaise") - increase	Mar-25
Bright Pixel	Pavo AI INC. ("Pavo AI")	Mar-25

The acquisitions described above refer to financial assets held at fair value, which are not part of the Group's consolidation perimeter.

1.4 Subsequent events

On 30th April, Sonaecom, SGPS, S.A. informed about the resolutions taken at the Shareholders' Annual General Meeting, including the approval of annual accounts and the approval of a 0.083 euros/share gross dividend distribution.

1.5 Basis of preparation

The condensed consolidated financial statements for the period ended on 31 March 2026, were prepared in accordance with IAS 34 - Interim Financial Reporting. Consequently, these financial statements do not include all the information required by the International Financial Reporting Standards ("IFRS"), so they should be read with the consolidated financial statements for the year ended on 31 December 2025. The accounting policies and measurement criteria, adopted by the Group on 31 March 2026 are consistent with those used in the preparation of 31 December 2025 financial statements.

The condensed consolidated financial statements of Sonaecom Group were prepared on the assumption of continuity of operations, based on the books and accounting records of the companies included in the consolidation, which were prepared in accordance with the International Financial Reporting Standards ("IFRS") as adopted and effective in the European Union and, based on historical cost, except for the revaluation of certain financial instruments.

1.6. New accounting standards and their impact in these consolidated financial statements

During the period, there were no changes in accounting policies, except for the adoption of new standards that became effective on 1 January 2026, which did not have a material impact on the Group's condensed financial statements.

The following standards, interpretations, amendments and revisions endorsed by the European Union became mandatorily applicable in the financial period beginning on or after 1 January 2026 and were adopted for the first time in the period ended on 31 March 2026:

Standards (new and amendments) effective as at 1 January 2026	Effective date (for financial years beginning on or after)
IFRS 7 and IFRS 9 – Amendments to the classification and measurement of financial instruments Introduction of a new exception to the definition of derecognition date when the settlement of financial liabilities is carried out through an electronic payment system. Additional guidance to assess whether the contractual cash flows of a financial asset are solely payments of principal and interest. Requirement for new disclosures for certain instruments with contractual terms that may alter cash flows. New disclosures about fair value gains or losses recognized in equity in relation to equity instruments designated at fair value through other comprehensive income.	1-Jan-26
IFRS 7 and IFRS 9 – Contracts negotiated with reference to electricity generated from renewable sources Regarding the accounting for power purchase agreements (PPAs) for electricity generated from renewable sources with respect to: i) clarifying the application of the 'own use' requirements; ii) allowing hedge accounting if renewable energy contracts are designated as hedging instruments; and iii) adding new disclosure requirements about the entity's financial performance and cash flows.	1-Jan-26
Annual Improvements – Volume 11 Some clarifications to Standards: IFRS 1, IFRS 7, IFRS 9, IFRS 10, and IAS 7.	1-Jan-26

The Group concluded that the application of these standards does not produced materially relevant impacts on financial statements.

The following standards, interpretations, amendments and revisions had been endorsed by the European Union up to the date of approval of these financial statements and are mandatorily applicable in future financial periods:

Standards (new and amendments) that will become effective, on or after 1 January 2027, endorsed by the EU	Effective date (for financial years beginning on or after)
IFRS 18 – Presentation and disclosure in financial statements	1-Jan-27
Presentation and disclosure requirements in financial statements, focusing on the income statement, through the specification of a model structure, with the categorization of expenses and income into operating, investing, and financing activities, and the introduction of relevant subtotals. Improvements in the disclosure of management performance measures and additional guidance on the application of aggregation and disaggregation principles.	

The Group did not early adopt this standard in the financial statements for the period ended 31 March 2026, as its application is not mandatory. The Group is currently assessing the impact of IFRS 18 and developing the necessary work for its implementation.

The following standards, interpretations, amendments and revisions had not, as at the period ended 31 March 2026, been approved (“endorsed”) by the European Union:

Standards (new and amendments) that will become effective, on or after 1 January 2027, endorsed by the EU	Effective date (for financial years beginning on or after)
IAS 21 – Translation to a hyperinflationary presentation currency	1-Jan-27
Foreign currency translation procedures, for the current and comparative periods, of financial information into the presentation currency of a hyperinflationary economy, where the functional currency of the entity or of a foreign operation is the currency of a non-hyperinflationary economy.	
IFRS 19 – Subsidiaries without public accountability: disclosures	1-Jan-27
A standard that addresses disclosures only, with reduced disclosure requirements, which is applied together with other IFRS Accounting Standards for recognition, measurement and presentation requirements. It may only be adopted by “Eligible” subsidiaries that are not subject to a public accountability requirement and have a parent that prepares consolidated financial statements available for public use that comply with IFRS.	
IFRS 19 – Subsidiaries without public accountability: disclosures	1-Jan-27
Amendment that sets out the reduction of disclosure requirements for new standards and amendments to standards issued between February 2021 and May 2024, applicable to entities within the scope of IFRS 19.	

The Group has not early adopted any of these standards in the financial statements for the period ended 31 March 2026, as their application is not mandatory. No material impacts are expected upon the adoption of these standards.

2. Operational activity

2.1 Segment information

During the periods ended on 31 March 2026 and 2025 were identified the following business segments:

- Media;
- Technologies (Bright Pixel);
- NOS; and
- Holding activities.

The main types of service revenue for Sonaecom’s subsidiaries are essentially as follows:

Media segment:

- I. Advertising revenues: essentially include the solicitation of advertising for Jornal Publico. This revenue is recognised when each advertising campaign is carried out;

Technologies segment:

- I. Maintenance services revenue: revenue associated with the maintenance of IT services provided or sold to the customer, recognised on a monthly basis over time as the customer simultaneously receives and consumes the benefits resulting from the company’s performance as it provides the service;
- II. Consulting services revenue: revenue from services provided in consulting projects is recognised in each financial year according to the performance obligation to which they relate, based on the percentage of completion. In other words, with respect to each performance obligation, the Group recognises revenue over time by measuring progress towards the complete fulfilment of that performance obligation; and
- III. Software as a Service (SaaS) revenue: SaaS service revenue is recognised monthly over time during the contract period. Revenue from the implementation of Software as a Service (SaaS) contracts, in some cases, should be recognised together with the SaaS service as a single performance

obligation over the contract period. In some SaaS contracts, the Software implementation services do not constitute a distinct performance obligation, but rather a performance obligation combined with the SaaS service. In these cases, the implementation and initial configuration activities mainly consist of administrative tasks necessary to perform the main SaaS service, but which do not provide an incremental benefit to the customer in isolation. Thus, in these contracts, by analysing the period and type of implementation carried out in each contract, the Group identifies whether it is facing one or two performance obligations (implementation and SaaS). In the case of a single performance obligation, it recognizes the revenue from that single performance obligation on a monthly over-the-time basis for the period contract.

Regarding the NOS segment, since it is consolidated using the equity method, it contributes only to the lines “Gains and losses on joint ventures and associates” and “Investments in associates and joint ventures”.

NOS is considered a standalone segment, despite being an associate, because: (i) separate financial information exists and is monitored by management; (ii) it carries out activities that are distinct from the other business areas; and (iii) it has a significant impact on the Group’s assets and results.

The segment “Holding activities” includes the operations carried out by the Group companies whose main activity is the management of shareholdings.

These segments were identified taking into account the following criteria/conditions: the fact that they are units of the group that develop activities where income and expenses can be separately identified, for which separate financial is prepared, their operating results are regularly reviewed by management and decisions are made regarding, for example, allocation of resources, the fact that they have similar products/services and also taking into account the quantitative threshold (as provided in IFRS 8).

Inter-segment transactions during the periods ended on 31 March 2026 and 2025 were eliminated in the consolidation process. All these transactions were made at market prices.

Inter-segment transfers or transactions were entered under the normal commercial terms and conditions that would also be available to unrelated third parties and were mainly related to interest on treasury applications and management fees.

The main information regarding the business segment existing as of 31 March 2026 and 2025, prepared in accordance with the same accounting policies and criteria adopted in the preparation of the consolidated financial statements, is as follows:

	Media		Technologies		NOS		Holding Activities		Subtotal		Eliminations and others			Total
	March 2026	March 2025	March 2026	March 2025	March 2026	March 2025	March 2026	March 2025	March 2026	March 2025	March 2026	March 2025	March 2026	March 2025

During the period ended 31 March 2026 and 2025, the sales and services rendered by segment were as follows:

	31 March 2026	31 March 2025
Technologies	315,471	434,464
Media and others	3,605,623	3,458,891
Total	3,921,094	3,893,355

During the periods ended on 31 March 2026 and 2025, sales and services rendered in the Media and Technologies segments were predominantly obtained in the Portuguese market, representing approximately 88.43% and 97.63%, respectively (89.87% and 97.51% in 2025, respectively).

3. Investments

3.1. Investments in joint ventures and associates

The associated companies and the joint ventures, their registered offices, proportion on capital held and value in the income statement as of 31 March 2026 and 2025 are as follows:

2026	Registered Office	Percentage of ownership	Value in profit and loss statement
NOS, SGPS, S.A. ("NOS")	Oporto	37.37%	20,046,108
Unipress – Centro Gráfico, Lda. ("Unipress")	Vila Nova de Gaia	50.00%	(24,781)
SIRS - Sociedade Independente de Radiodifusão Sonora, S.A. ("Rádio Nova")	Oporto	50.00%	2,280

In situations of investments in associates that are venture capital organizations, IAS 28 contains an option to keep these investments held by them measured at fair value. The Group has chosen this option, in applying the equity method to Armilar Funds.

In accordance with the IFRS 11, the classification of financial investments in joint ventures is determined based on the existence of shareholder agreements that demonstrate and regulate joint control. Thus, as of 31 March 2026, the Group held joint ventures and associated as detailed below.

The division by company of the amount included in the investments in associated companies and joint ventures on 31 March 2026 and 31 December 2025 is as follows:

	31 March 2026	31 December 2025
Investments in companies jointly controlled		
Unipress	750,786	775,567
Radio Nova	61,623	59,343
	812,409	834,910
Investments in associated companies		
NOS	859,972,001	838,186,443
Armilar II	36,753,556	36,729,322
Armilar III	17,360,976	17,059,693
Armilar I+I	14,757,548	14,761,864
	928,844,081	906,737,322
Total	929,656,490	907,572,232

The value of the equity interest includes implicit goodwill in NOS amounting to 537 million euros and implicit goodwill in Unipress amounting to 0.3 million euros.

Investment in NOS

The value of the investment held in NOS is measured using the equity method.

At the NOS general meeting in April 2026, shareholders approved the payment of an ordinary dividend of 0.35 euros per share (in line with the previous year) and an extraordinary dividend of 0.10 euros per share in respect of the number of shares issued. The dividend was paid on 8 May and resulted in proceeds of 86.6 million euros received by Sonaecom.

Sonaecom holds directly 192,527,188 shares in NOS, representing 37.37% of its share capital.

Taking into account the percentage of ownership, directly attributable to Sonaecom, it was analysed in the light of what is described in IFRS 10, whether Sonaecom could exercise control over NOS. From this analysis, it was concluded that Sonaecom does not control the aforementioned company, insofar as it does not hold the majority of the share capital and voting rights of NOS and, that it is not clear that i) it is possible for Sonaecom to make decisions for itself only and ii) that the existence of a majority contrary to its intentions is unlikely. In view of the above and given that Sonaecom has the opportunity to participate in NOS' decision-making processes, we are facing a situation of significant influence, with the respective investment being classified as "Investments in associates" and recorded in Sonae's consolidated accounts using the equity method.

For the period ended 31 March 2026, it was considered the assumptions used in the impairment tests carried out in 2025 did not have material changes.

NOS group provisions

The evolution in provisions occurred during the first 3 months of 2026 compared to 31 December 2025 was as follows:

1) Legal actions with regulators and Competition Authority (AdC)

NOS Comunicações, S.A. (“NOS”), NOS Açores Comunicações, S.A. (“NOS Açores”) and NOS Madeira Comunicações, S.A. (“NOS Madeira”) have been challenging in court ANACOM’s decision to settle of the Annual Activity Fee (corresponding to the years 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022 and 2023) as providers of Electronic Communications Networks and Services, seeking reimbursement of the amounts paid in execution of those assessments. For the years 2020, 2021, 2022 and 2023, NOS Wholesale also filed judicial challenges against the assessment of the Activity Fee. During the financial years ended 31 December 2023, 2024 and 2025 and the first quarter of 2026, NOS recognised income of 38.5 million euros, 78.1 million euros, 6.3 million euros and 3.0 million euros, respectively, corresponding to the amount relating to the pending impugnation processes whose assessments were issued under the rules deemed unconstitutional.

With regard to the notification issued by the Portuguese Competition Authority (AdC) in July 2020 concerning digital marketing on Google’s search engine, in December 2024 NOS was notified by the AdC of a new statement of objections reiterating the previous allegations, to which NOS submitted its defence in February 2025. The proceedings are currently at the investigation stage, with the AdC having extended the respective deadline until June 2026. Based on the information available, the Board of Directors believes that it will be able to substantiate several arguments in support of its defence; however, it is not expected that the outcome of the proceedings will give rise to significant additional impacts beyond those already reflected in the NOS Group’s financial statements.

2) Action brought by MEO against NOS SA, NOS Madeira and NOS Açores, and by NOS SA against MEO

In July 2023, in respect of the action brought by MEO against NOS, and notwithstanding that no additional evidence was produced as determined by the Supreme Court of Justice, the court issued a new ruling ordering NOS to pay 5.3 million euros. In October 2023, NOS appealed this decision to the Lisbon Court of Appeal and, in April 2024, that court overturned the decision of the court of first instance and ordered the hearing of witnesses regarding the additional facts introduced following the Supreme Court of Justice ruling of March 2019.

The trial hearing took place in early April 2026, and the period for the submission of written pleadings is currently ongoing, after which the judgment drafting phase will start.

3) Proceedings by Citizens Voice

In July 2025, the court declared itself incompetent to assess certain claims and, with respect to the remaining claims, upheld the objection of lack of standing of Citizens’ Voice to bring them, thereby dismissing NOS from the proceedings in relation thereto. Citizens’ Voice appealed this decision and, in March 2026, the Lisbon Court of Appeal dismissed the appeal. This decision is still pending final and unappealable status. The next procedural steps are awaited, and the Board of Directors is confident that the claimant’s arguments are unfounded; accordingly, it is not expected that the outcome of the proceedings will have a significant impact on the NOS Group’s financial statements.

3.2. Financial assets at fair value

3.2.1. Financial assets at fair value through profit or loss

As of 31 March 2026 and 31 December 2025, this caption was composed as follows:

Investments classified as “Financial Assets at fair Value Through Profit or Loss” in accordance with IFRS 9 are those not irrevocably designated at initial recognition as fair value through other comprehensive income. Also classified under this category are investments in associates held by venture capital organizations or equivalents, where the Group has opted, at initial recognition, to measure at fair value through profit or loss in accordance with IFRS 9. Subsequent changes in fair value are presented through profit or loss. The fair value of investments is determined in the currency of the country of investment and converted to euros at the end of the reporting period.

Arctic Wolf

Arctic Wolf, a US based company, is a global pioneer in the SOC-as-a-Service market with cutting-edge managed detection and response (MDR), which provides a unique combination of technology and services for clients to quickly detect and contain threats. Bright Pixel, jointly with US technology investors Lightspeed Venture Partners and Redpoint, entered in the company’s cap table in 2017 in a series B round. Since then, the Company closed a 45 million dollars series C round in 2018, a 60 million dollars Series D round at the end of 2019, a 200 million dollars series E round in October 2020 funding at a valuation of 1.3 billion dollars and, in 2021, a 150 million dollars, held by existing and new investors, at an underlying valuation of 4.3 billion dollars.

Sekoia.io

Sekoia.io is a European cybertech company responsible for developing the Sekoia.io XDR (eXtended Detection & Response) platform, which ensures real-time detection of cyberattacks. In 2023, the company has raised 35 million euros, in series A, funding round with the participation of Banque des Territoires, Bright Pixel, and existing investors Omnes Capital, Seventure and BNP Paribas Développement. In 2025, it announced a Series B round of €26 million led by Revaia, with the participation of UNEXO and the support of existing investors — Bright Pixel, Omnes Capital and Bpifrance.

Infraspeak

Infraspeak is the leading European and South American Intelligent Maintenance Management Platform (IMMP), headquartered in Portugal, has secured a series A extension round of 7.5 million euro, led by Bright Pixel in 2023.

Vicarius

Vicarius is a SaaS platform that consolidates vulnerability discovery, prioritization, and remediation into a single solution. In 2023, the company raised a 30 million dollars series B round led by Bright Pixel and participated by AllegisCyber Capital, AlleyCorp and Strait.

Ometria

Ometria is a London based AI powered customer marketing platform with the vision to become the central hub that powers all the communication between retailers and their customers. This investment was done by Bright Pixel in the series A round, alongside several strategic investors (including Summit Action, the US VC fund of the Summit Series) and was reinforced during series B and C rounds.

KeyChain

KeyChain is the AI-powered platform that helps brands and retailers quickly find the right manufacturers to produce their products. Bright Pixel invested 5 million dollars at the end of 2024, bringing the total company's funding to 38 million dollars with support from leading venture firms BoxGroup, Lightspeed Venture Partners, and SV Angel as well as other CPG giants General Mills, The Hershey Company, and Schreiber Foods. During 2025, the company raised a 30 million dollars series B round, in which Bright Pixel participated, and launched Keychain OS, an AI Operating System Set to Power the Future of CPG Manufacturing.

Encord

Encord is an AI-native data infrastructure company that enables teams to manage, curate and annotate complex multimodal data — including video, audio, images and sensor data - which is critical for production-grade physical AI systems powering robots, autonomous vehicles and other real-world applications. In 2025, Bright Pixel participated in Encord's US 60 million dollars series C funding round alongside Wellington Management and other existing investors, reinforcing its strategic exposure to infrastructure that supports the rapid scaling of AI development.

Harmonya

Harmonya offers a generative Artificial Intelligence product for data enrichment and categorisation aimed at retailers and major brands. In 2023, the company secured a 20 million dollars Series A round led by Bright Pixel, with the participation of existing investors: Team8, Arc Investors, J Ventures, Silicon Road Ventures, Allen & Company, LiveRamp Ventures, and Susa Ventures. In 2025, the company announced a strategic investment from Dunnhumby Ventures and from its current investors, Bright Pixel and Team8.

Safebreach

SafeBreach, pioneer in the Breach and Attack Simulation (BAS) market, is the world's most widely used continuous security validation platform. The patented platform automatically and safely executes thousands of attack methods to validate network, endpoint, cloud, container and email security controls against its Hacker's Playbook, the world's largest collection of attack data broken down by methods, tactics, and threat actors. SafeBreach raised 53.5 million dollars in series D funding, led by Bright Pixel and Israel Growth Partners (IGP), with additional participation from Sands Capital, Bank Leumi and ServiceNow.

Duel

Duel is the leading Brand Advocacy platform helping leading retail brands grow through their own fan and creator communities instead of traditional advertising. The company raised 16 million dollars in a series A round co-led by Bright Pixel and Molten Ventures, alongside existing investor Peter Bauer, founder of Mimecast.

Sales Layer

Sales Layer is a Spanish based company with a cloud-based Product Information Management (PIM) platform, helping brands and retailers to transform their catalogues into a digital, enriched and multichannel control center. Bright Pixel led its series A round and recently participated in its series B round.

ONA

ONA is a US-based technology platform that serves as "mission control" for software development, combining secure cloud development environments with AI-powered engineering agents. In 2025, Bright Pixel co-led a 15 million dollars funding round.

Codacy

Codacy is a PT-based automated code review and engineering productivity tool. It provides intelligence for software engineering teams to reach their full potential. Codacy raised a 15 million dollars series B funding round led by Bright Pixel, also backed by existing investors Armilar Venture Partners, EQT Ventures, Join Capital, Caixa Capital, Faber Ventures and Iberis Capital.

Second nature

Second Nature is an Artificial Intelligence–based sales training platform that supports large companies in upskilling and coaching their commercial teams through real-time coaching and interactive simulations. In 2025, Bright Pixel co-led a 22 million dollars Series B round together with Sienna Ventures, with the participation of StageOne Ventures, Cardumen, Signals VC and Zoom Communications Inc.

Tidal

Tidal is a Virginia-based cybersecurity provider pioneering Threat-Led Defense, that has raised 10 million dollars in series A financing round in 2025. The investment was led by Bright Pixel, with participation from existing Tidal Cyber investors, USAA, Sudra, Capital One, Veteran Ventures, Task Force X, and Ultratech.

Hackuity

Hackuity is a risk-based vulnerability management solution that empowers cybersecurity teams and leaders to comprehensively collect, prioritize, and remediate security weaknesses before they can be exploited by their adversaries. Hackuity raised a 12 million euro funding round, led by Bright Pixel with the participation of previous investor Caisse des Dépôts.

Jentis

Jentis is an Austrian scale-up specializing in advanced server-side web tracking and data protection technologies. Its Data Capture Platform is an all-in-one tracking solution that provides businesses enhanced data quality and data sovereignty while enabling compliance with GDPR and other global data protection regulations. Bright Pixel led a 11 million euro in a series A funding round raised in 2023. This round was also participated by the new co-investor 3TS Capital Partners, and by the existing investor Pragmatech Ventures.

TruStero

TruStero is an innovative Silicon Valley company focused on Artificial Intelligence-driven (“AI-driven”) Security and Compliance, supporting organisations that need to demonstrate compliance with cybersecurity and data-protection standards. In 2024, it closed a 10.35 million dollars Series A investment round, led by Bright Pixel, with the participation of existing investors Engineering Capital, Zetta Ventures Partners and Vertex Ventures US.

Tamnoon

Tamnoon, is the first and only human-AI managed service developed from the ground up specifically for cloud security remediation. In September 2024, raised 12 million dollars in a series A round led by Bright Pixel with participation by new investors Blu Ventures and Mindset Ventures as well as existing investors Merlin Ventures, Secret Chord Ventures, Inner Loop Capital, and Elron Ventures.

Citcon

Citcon, headquartered in the United States, is a leading provider of digital wallet payment solutions through a fintech platform that enables global commerce by connecting retailers worldwide with more than 100 different payment methods, including digital wallets and local alternative payment systems. Citcon raised a 30 million dollars Series C funding round led by Norwest Venture Partners and Cota Capital, with participation from Bright Pixel and Sierra Venture.

Brij

Brij is the AI-powered platform that helps consumer brands redefine omnichannel enablement by unlocking and monetizing offline customer relationships. The company closed an 8 million dollars oversubscribed investment round led by Bright Pixel and CEAS Investments, with participation from Artemis Fund, Red Bike Capital, Lakehouse Ventures, and Forum Ventures, as well as strategic angels from leading consumer brands including Caraway, Brunt Workwear, and Feastables.

Knostic

Knostic is the world's first provider of need-to-know-based access controls for generative AI. It helps companies use AI tools securely by controlling who can access what information and preventing unauthorised data sharing. In 2024, the company closed an 11 million dollars funding round led by Bright Pixel, with the participation of new and existing investors, including Silicon Valley CISO Investments (SVCI), DNX Ventures, Seedcamp and several angel investors.

Jscrambler

Jscrambler, is a Portuguese startup that develops a security solution to protect Web and Mobile Applications (Javascript code). In 2018, the company raised a 2.3 million dollars in a financing round that was led by Bright Pixel with the co-investment of Portugal Ventures. In 2021, the Company raised 10 million euro in a series A with the participation of Ace Capital Partners.

HiveMQ

HiveMQ is a German enterprise-grade platform that enables secure, real-time data movement across millions of IoT devices. In 2025, Bright Pixel participated in a 25 million euros funding round.

Afresh

Afresh, is a US-based leading AI-powered fresh food technology provider. Afresh's AI-powered solutions optimize critical functions in fresh food, including ordering, inventory, merchandising, and operations. Afresh significantly reduces food waste, improves its partners' profitability, and makes fresher, healthier food more accessible to all. Afresh announced a 115 million dollars series B funding round led by Spark Capital and with participation from Insight Partners, VMG Partners, and Bright Pixel Capital.

Mesh Security

Mesh Security is a US based cybersecurity company developing an execution layer for Cybersecurity Mesh Architecture, enabling enterprises to orchestrate and automate security operations across complex environments. Bright Pixel invested in the company in 2025, participating in its 12 million dollars series A round as part of its continued focus on advanced cybersecurity solutions

3.2.2 Movement occurred during the period

For the periods ended 31 March 2026 and 2025, the changes in investments at fair value through profit or loss were as follows:

	31 March 2026	31 March 2025
Opening balance	245,139,200	228,295,052
Acquisitions/capital increases	1,619,313	7,213,861
Fair value and impairment of other financial assets and other variations	3,172,087	(5,981,629)
Closing balance	249,930,600	229,527,284

3.3 Gains or losses on investments

Gains or losses on investments for the periods ended 31 March 2026 and 2025, are as follows ((costs)/income):

	31 March 2026	31 March 2025
Financial results of associates and jointly controlled companies:		
Gains and losses related with the application of the equity method (note 3.1)	20,344,807	19,602,152
	20,344,807	19,602,152
Gains and losses on financial assets at fair value through profit or loss		
Gains and losses on financial assets at fair value through profit or loss (note 3.2.2)	3,172,087	(5,981,629)
Reversals / losses due to impairments of other financial	(32,755)	103,257
Gains on disposal of financial assets at fair value through profit or loss	(10,765)	-
	3,128,567	(5,878,372)

4. Related Parties

During the periods ended on 31 March 2026 and 31 December 2025, the balances and transactions maintained with related parties were mainly associated with the normal operational activity of the Group and to the concession and obtainment of loans.

Balances on 31 March 2026				
	Parent company	Companies joint ventures	Associated companies	Other related parties
Accounts receivable	156,594	91,013	16,154	612,460
Accounts payable	(1,695,996)	(72,600)	(216,107)	(103,569)
Other assets	6,050,542	3,536	-	5,494,817
Other liabilities	(11,133)	-	(10,207)	-

Balances on 31 December 2025				
	Parent company	Companies joint ventures	Associated companies	Other related parties
Accounts receivable	96,035	67,772	3,606	801,037
Accounts payable	(2,234,684)	(108,543)	(220,037)	(144,304)
Other assets	5,717,028	-	1,390	5,499,226
Other liabilities	(12,929)	-	(20,400)	-

The transactions with related parties during the periods ended on 31 March 2026 and 2025 were as follows:

Transactions on 31 March 2026				
	Parent company	Companies joint ventures	Associated companies	Other related parties
Sales and services rendered	135,100	18,163	-	330,840
Supplies and services received	(157,327)	(76,214)	(128,980)	(287,510)
Interest and similar income	1,047,907	-	-	96,302
Supplementary income	-	15,250	-	2,400

Transactions on 31 March 2025				
	Parent company	Companies joint ventures	Associated companies	Other related parties
Sales and services rendered	8,573	350	-	396,173
Supplies and services received	(159,832)	(63,476)	(103,785)	(173,700)
Interest and similar income	1,139,817	-	-	86,130
Interest and similar expense	-	-	-	(68)
Supplementary income	51,200	78,450	-	-

The transactions between Group companies were eliminated in consolidation, and therefore are not disclosed in this note.

All the above transactions were made at market prices.

Both accounts receivable and payable with related parties will be paid in cash and have no guaranties attached.

During the periods ended on 31 March 2026 and 2025, no impairment losses have been recognized as accounts receivables of related parties.

Board of Directors,

Ângelo Gabriel Ribeirinho dos Santos Paupério

Maria Cláudia Teixeira de Azevedo

João Pedro Magalhães da Silva Torres Dolores

Eduardo Humberto dos Santos Piedade

Cristina Maria de Araújo Freitas Novais

Attachment I - Companies in the consolidation perimeter

The subsidiary companies included in the consolidation, their registered offices and proportion of capital held on 31 March 2026 and 31 December 2025, are as follows:

Company (Commercial brand)	Registered office	Main activity	Shareholder	Percentage of share capital held
