

Annual Report
2022

Hynion AS

Hynion is a dynamic company with extensive experience in the development and sale of green hydrogen fuel for the transport sector. Hynion has sold hydrogen fuel since 2007 and is among the largest and most experienced hydrogen fuel companies in Scandinavia. Our hydrogen stations are based on proprietary technology, which we are developing further into the next generation stations.

Highlights 2022

YEAR 2022

"2022 has been a very busy year. We have completed the opening of two hydrogen stations in Sweden and launched the transformation from a startup company for small-volume hydrogen stations to real heavy-duty stations for heavy traffic. We are part of a massive build-up of hydrogen infrastructure in Sweden, where we got a grant of 61.4 MSEK as full financing of two large hydrogen stations, one in Västerås and one in Jönköping. This will be a major step-up," says Slavica Djuric, CEO of Hynion AS and Hynion Sverige AB.

SIGNIFICANT EVENTS DURING THE FINANCIAL YEAR:

- Hynion Sverige AB becomes Sweden's largest hydrogen fuel supplier by acquiring a hydrogen filling station from Linde and at the same time making an agreement to supply hydrogen to two fuel cell buses belonging to Transdev Sverige AB.
- STRING Megaregion announced the project to build 12 hydrogen stations from Hamburg to Oslo, and Hynion Sverige AB will build two of these, in Malmö and Göteborg.
- A cooperation agreement was made with Hyrex AS, a leisure boat company, for refueling of hydrogen powered boats from a floating refueling station.
- The Swedish Energy Agency approved a grant of 61.4 MSEK for the full financing of building two robust high-capacity hydrogen stations.
- Hynion Sverige AB entered into a partnership with PDC Machines for the supply of compressors for the two large stations to be built in Västerås and Jönköping.
- The STRING Megaregion project received 12.4 MEUR from EU to build 12 hydrogen stations. Hynion Sverige AB will receive 2.4 MEUR for two stations in Gothenburg and Malmö.
- The hydrogen station in Gothenburg that was acquired from Woikoski in 2020 was finally approved for public vehicle refueling.
- A Rights Issue launched in November generated 35.2 MNOK gross capital. An associated warrant program will generate 12 MNOK in May if fully signed.

SIGNIFICANT EVENTS AFTER THE FINANCIAL YEAR:

- Hynion reorganizes for powerful investments in Sweden, to handle the large, partly financed projects to establish high-capacity hydrogen stations.
- Slavica Djuric was appointed new CEO of Hynion AS and remains the CEO of Hynion Sverige AB and IR manager.

KEY FINANCIALS

- Hynion Group had revenues from hydrogen sales of NOK 4.16 MNOK in 2022 compared to 1.72 MNOK in 2021.
- Net profit Hynion group was negative 29.2 MNOK compared to negative NOK 16.8 in 2021.
- The cash balance end of period was MNOK 41.6 compared to 40.9 MNOK in 2021.

Letter from the CEO

As the newly appointed CEO of Hynion AS and the incumbent CEO of Hynion Sverige AB, I am pleased to announce that the Hynion Group as a whole, reached many important milestones in 2022, including the building start of our largest project to date, two large hydrogen stations in Sweden.

Our core focus during 2022 has been on continuing to transform Hynion Group from a relatively small-volume hydrogen station start-up to an entire provider, builder, and operator of heavy-duty hydrogen stations for trucks. The completion of our two hydrogen stations in Västerås and Jönköping, will show that the transformation is well underway and that we have the capacity to deliver on ambitious goals on all levels of the hydrogen stack. With this, we have established Hynion Group as one of the key players in Scandinavia's fast-growing hydrogen infrastructure and station deployment market.

The Russian invasion of Ukraine in 2022 significantly impacted the geopolitical landscape and changed the view on energy dependency and the underlying production cost structure. Here hydrogen produced with clean energy can play a significant role. Europe's hydrogen consumption is currently less than 2% of the total energy consumption. The REPowerEU plan, adopted in 2022, is the EU strategy to increase renewable hydrogen production with the aim to

produce and import 10 million tons of renewable hydrogen by 2030. This will further strengthen the European hydrogen ecosystem, from research to production. Furthermore, the EU aims to cut carbon emissions by 55% by 2030, and all member states must follow.

In Sweden, one-third of the carbon-related greenhouse gas emissions stem from the transportation sector, mainly from passenger cars and heavy diesel vehicles. In 2022, Sweden initiated a funding plan for using renewables in the trucking transportation industry with the objective of reaching the ambitious Swedish environmental targets.

Another significant milestone in 2022 was that Hynion became Sweden's largest hydrogen fuel supplier. We reached this market position in cooperation with our partners Linde, Renova AB and Transdev Sverige AB. Additionally, within the STRING Megaregion project to build 12 hydrogen stations from Hamburg to Oslo, Hynion Sverige AB was selected to build two new stations in Malmö and Göteborg. Hynion Sverige AB received 2.4 MEUR funding from EU for these two stations.

Hynion Sverige AB has also received a grant of 61.4 MSEK from the Swedish Energy Agency, Svenska Energimyndigheten, to fully finance two large, heavy-duty vehicle hydrogen stations in Västerås and Jönköping. The hydrogen

station in Göteborg has last year been approved for vehicle refuelling. That is a significant stepping stone for our regional growth to strengthen our market position further.

In Norway, we have established partnerships with Hyrex AS to refuel hydrogen-powered boats. We have also substantially increased the hydrogen sales to 3.99 M NOK, up from 1.49 MNOK in 2021, primarily by serving the retail and taxi market. The group's employment went from five to ten plus consultants, whereas Hynion AS employs seven.

Net profit for Hynion Group was negative 29.2 MNOK in 2022, further down from negative 16.8 MNOK in 2021. As part of the current strategic conversion of Hynion Group, which is particularly affecting Hynion AS, thus will remain under strict cost management. The prime regional basis will be the Swedish market in short to mid-term.

A rights issue in November generated 35 MNOK in gross capital, further positioning Hynion for future success and guaranteeing the company's liquidity and a financial levy.

Our mission as a hydrogen distributing company is to offer clean hydrogen, one station at a time, through our design, build and operation model, facilitating secure and efficient hydrogen fueling stations. Also, we aim to include the

hydrogen production value chain as a core part of our business, which is a critical aspect of our long-term vision.

During 2023 Hynion Group will focus on reducing the company's underlying cost structure and explore the possibility of managing the hydrogen production and distribution and storage process from production to end consumer services. Meaning we will further assess vertical integration opportunities in the growing heavy-vehicle hydrogen station market. Hynion Group will also explore additional revenue models based on our unique technical and operational exper-

tise, innovative capacity, extensive contacts, and partner network. We believe that Hynions future success depends on our ability to stay at the forefront of innovation in the hydrogen industry.

As the CEO of the Hynion Group, I am firmly committed to playing a vital role in developing a safe and reliable infrastructure for hydrogen. Additionally, I am proud to be a part of the efforts to create a sustainable future and drive society towards a zero-emissions destination.

Together, let us lead the change towards a brighter and cleaner tomorrow.

Best regards,

Slavica Djuric
CEO, Hynion Group

The Board of Directors' Report 2022

OPERATIONS AND LOCATIONS

Hynion AS is a company that designs, builds, owns and operates hydrogen fuel stations with and without associated production plants. The main business is sales of hydrogen fuel to vehicles. Hynion will develop the station network and production facilities in the countries it is established. Currently Hynion operates five hydrogen stations, two in Norway and three in Sweden.

The Group includes, in addition to Hynion AS, the following subsidiaries: Hynion Sverige AB and H-of-C AS.

The filling stations in Norway are located at Høvik in Bærum, just outside Oslo, and Herøya, Porsgrunn. The Swedish stations are located in Gothenburg, Stockholm (Arlanda) and Sandviken.

Hynion AS and Hynion Sverige AB are selling hydrogen fuel directly to the customers at the stations.

The subsidiary H-of-C is currently a daughter company that will be used for ownership and operation of the new production plant that are planned to build. The company and plant will be co-owned by Hynion and technology provider Greenlogix.

Volumes of hydrogen sold at the Høvik station has increased by 123% since 2021, mainly due to the continued increase of taxis in the market.

On July 13 2022 Hynion Sverige AB was approved for a grant of SEK 61 400 000

from the Swedish Energy Agency to build two large hydrogen filling stations, one in Västerås and one in Jönköping. These stations shall be completed during 2023.

COMMENTS RELATED TO THE FINANCIAL STATEMENTS

The Group's revenues from hydrogen sales increased 141% from NOK 1 722 338 last year to NOK 4 156 290 in 2022. Net result in 2022 was negative 29 192 405, as last year, negative NOK16 806 421. Building a position with investment in assets and employing personnel are the main cost drivers in 2022 and cost level was as expected.

The parent company's revenues from hydrogen sales increased 167 % from NOK 1 497 952 last year to NOK 3 996 199 in 2022. Net result in 2022 was negative 21 014 261, as last year, negative NOK 12 948 440. Building a position with investment in assets and employing personnel are the main cost drivers in 2022 and cost level was as expected.

The Group's capital investments during 2022 amounted to NOK 13 133 396, of this NOK10 391 282 for purchase and upgrade of hydrogen stations and 2 217 114 for facility for production of hydrogen under development. These investments increased the Group's capacity and possibility to increase hydrogen sales volumes in 2024.

The parent company's capital investments during 2022 amounted to NOK 6 952 337, of this NOK4 210 374 for pur-

chase and upgrade of hydrogen stations and 2 217 114 for facility for production of hydrogen under development.

The Group's liquidity reserve as of 31.12.2022 amounted to NOK 41 617 248. Of this, NOK 801 619 is deposits for future obligations. And NOK 8 461 490 is advances on contributions from the public sector to be used for the building of two stations in Sweden.

Total assets at year-end amounted to NOK 70 072 511, compared to NOK 61 574 587 last year.

The parent company's liquidity reserve as of 31.12.2022 amounted to NOK 5 260 460. Of this, NOK 650 371 is deposits for future obligations. Total assets at year-end amounted to NOK 72 419 684, compared to NOK 64 813 705 last year.

TREASURY STOCK

The company holds no Treasury stock.

FUTURE CHALLENGES

The hydrogen fuel market is expected to grow substantially over the next years. EU and other authorities are targeting a transport sector with zero emissions over the next two decades, and hydrogen can play a vital role in this transformation. Some car manufacturers like Toyota and Hyundai have delivered hydrogen cars in the market for several years, while others are developing technology and making the cars ready for the future market. New EU-legislation for

vehicle emissions is expected in 2025, making hydrogen fuel an even more attractive option. Truck manufacturers are developing models and announce they will come to the market with hydrogen models in a few years' time.

Hynion is planning an expansion of the station network in Scandinavia and other countries, aiming at our visionary target of 100 hydrogen stations. Hynion will work in national and EU-projects like H2truck and String to take advantage of collaborations that can trigger the development and secure off-take of hydrogen fuel. Hynion will continue to build alliances with partners contributing to developing the hydrogen fuel market.

FINANCIAL RISK

OVERALL VIEW ON OBJECTIVES AND STRATEGY

The company need to finance the investments in new stations over the next few years. Hynion was listed at the Oslo Stock Exchange, Euronext growth in April 2021 to secure better access to capital. New capital was raised in December 2022. The company's current strategy is to use this financial instrument for short term expansion.

MARKET RISK

The main market risk is that the market will not build as fast as expected. Hynion will through collaboration within projects, partners and authorities and other stakeholders seek to minimize risk for establishment of the hydrogen stations.

CREDIT RISK

The risk for losses on receivables is considered to be low as most customers pay directly with credit cards. A few customers pay by invoice, but the group has not experienced any substantial losses.

LIQUIDITY RISK

The Group's liquidity is good, and new investments will be aligned with current capital and new capital increases from investors.

GOING CONCERN

In accordance with the Accounting Act § 3-3a, we confirm that the financial statements have been prepared under the assumption of going concern. This assumption is based on profit forecasts for the year 2023+1 and the Group's long-term strategic forecasts. The Group's economic and financial position is sound.

ALLOCATION OF NET LOSS

The Board of Directors has proposed the net loss of the group NOK 29 192 405 to be covered by share premium reserve.

THE WORKING ENVIRONMENT AND THE EMPLOYEES

The employees have stayed healthy and there has been very limited leave of absence due to illness. No incidences or reporting of work-related accidents resulting in significant material damage or personal injury occurred during the year. The working environment is considered to be good, and efforts for improvements are made on an ongoing basis.

EQUAL OPPORTUNITIES AND DISCRIMINATION

The company employs nine persons by year-end 2022, whereof two women. The Senior position in Hynion Sverige AB is held by a woman.

ENVIRONMENTAL REPORT

Hynions business does not produce any harmful emissions and are by its nature a business that is fully dedicated to reducing emissions through its product hydrogen fuel. Using hydrogen fuel in vehicles produces only water emission, which is not harmful for the environment. The hydrogen Hynion uses is produced from water and renewable electricity, also not creating any emissions. At the stations, Hynion are buying certified green electricity for operating machines, heat, and lights.

The only emissions from Hynions business are the transport of hydrogen from the production plant to the stations with diesel trucks. These trucks will be replaced with hydrogen fueled trucks as soon as these become available. However, these emissions are very small compared to the savings that is achieved from use of hydrogen fuel from Hynion.

INSURANCE FOR BOARD MEMBERS AND GENERAL MANAGER

Hynion has an insurance policy from Tryg forsikring for the board and general manager.

HØVIK, February 23, 2023.

Notes to the Condensed Consolidated Financial Statements

CORPORATE INFORMATION

Hynion is a hydrogen fuel company where the main business is to sell hydrogen fuel through hydrogen stations owned by the company. Hynion was incorporated in 2019 and builds on legacy from Norsk Hydro, Statoil and HYOP. The company acquired two stations located in Norway from HYOP in 2019. In 2020, Hynion Sverige AB was established, and the company acquired an additional station in Gothenburg. In 2021 Hynion Sverige AB acquired a station at Stockholm Arlanda, and in February 2022 a station in Sandviken was acquired.

In July 2022 Hynion Sverige AB was granted a grant of 61.4 MSEK to be used as full financing of building two large hydrogen filling stations, one in Västerås and one in Jönköping. Hynion plans to expand the network over the next few years – aligned with the market demand.

Hynion's headquarter is in Oslo, Norway with activities in Norway and Sweden. The shares in the company are traded at Euronext Growth, Oslo under the ticker "HYN". Organization number 922 110 611.

BASIS FOR PREPARATION

The consolidated financial statements on 31. December 2022 incorporates the financial statements of the Company and its subsidiaries which referred to combined as "the Group". The consolidated financial statements of the Group comprise of consolidated statement of income, financial position, cash flow and related notes. The consolidated statements of the Group for the date 31 December 2022 have been prepared in compliance with the Accounting Act and accounting principles generally accepted in Norway (NGAAP).

PRESENTATION CURRENCY AND FUNCTIONAL CURRENCY

The consolidated financial statements of the Group are expressed in NOK (Norwegian kroner). The functional currency in Hynion Sverige AB (subsidiary) is in SEK /Swedish kroner). The functional currency in the parent company Hynion AS is in NOK.

BASIS OF CONSOLIDATION

The Group's consolidated financial statements comprise the parent company and its subsidiaries as of 31 December 2022. Consolidated entities have been assessed as being controlled by the Group during the reporting period.

The conversion difference is due to difference exchange rate between SEK and NOK in the subsidiary Hynion Sverige AB. P&L transactions in the subsidiary Hynion Sverige AB have been converted to average exchange rates in 2022 from SEK to NOK.

Intercompany transactions, balances and unrealized gains or losses on transactions between Group companies eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

The group accounts can be handed over at the company's head office in Oslo, Norway.

CASH AND SHORTS-TERM DEPOSITS

Cash and cash equivalents in the consolidated statement of financial position and the consolidated statement of the cash flows includes cash and restricted cash with a restriction less than three months from end of the reporting period.

USE OF ESTIMATES

The preparation of financial statements in compliance with the Accounting Act requires the use of estimates. The application of the company's accounting principles also requires management to apply assessments. Areas which to a great extent contain such assessments, a high degree of complexity, or areas in which assumptions and estimates are significant for the financial statements, are described in the notes.

REVENUES

Income from sale of goods and services is recognized at fair value of the consideration, net after deduction of VAT, returns, discounts and reductions. Sales are booked as income when the company has delivered its products to the customer and there are no unsatisfied commitments which may influence the customer's acceptance of the products. Delivery is not completed until the products have been sent to agreed place, and risks relating to loss and obsolescence have been transferred to the customer. Historical data is applied to estimate and recognize provisions for quantity rebates and returns at the sales date. Services are recognized in proportion to the work performed.

CLASSIFICATION OF BALANCE SHEET ITEMS

Assets intended for long term ownership or use have been classified as fixed assets. Assets relating to the trading cycle have been classified as current assets. Other receivables are classified as current assets if they are to be repaid within one year after the transaction date. Similar criteria apply to liabilities. First year's instalment on long term liabilities and long-term receivables are, however, not classified as short-term liabilities and current assets.

PURCHASE COSTS

The purchase cost of assets includes the cost price for the asset, adjusted for bonuses, discounts and other rebates received, and purchase costs (freight, customs fees, public fees which are non-refundable and any other direct purchase costs). Purchases in foreign currencies are reflected in the balance sheet at the exchange rate at the transaction date.

For fixed assets and intangible assets purchase cost also includes direct expenses to prepare the asset for use, such as expenses for testing of the asset. Interest expense incurred in connection with the production of fixed assets is expensed.

PROPERTY, PLANT AND EQUIPMENT

Fixed assets are reflected in the balance sheet and depreciated to residual value over the asset's expected useful life on a straight-line basis. Direct maintenance of an asset is expensed under operating expenses and when it is incurred. Additions or improvements are added to the asset's cost price and depreciated together with the asset.

INVESTMENT IN SUBSIDIARIES

Investments are initially recognized at cost and assessed annually for impairment.

INVENTORIES

Inventories are valued at the lower of purchase cost (according to the FIFO principle) and net realized value.

TRADE AND OTHER RECEIVABLES

Trade debtors are recognized in the balance sheet after provision for bad debts. The bad debts provision is made on basis of an individual assessment of each debtor and additional provision is made for other debtors to cover expected losses.

FOREIGN CURRENCIES

Assets and liabilities in foreign currencies are valued at the exchange rate on the balance sheet date. Exchange gains and losses relating to sales and purchases in foreign currencies are recognized as financial income and expense.

LIABILITIES

Financial liabilities are measured using the amortized cost method.

PENSIONS

The pension scheme is financed through payments to an insurance company and qualifies as a defined contribution plan. After the contribution has been made, the company has no further commitment to pay. The contribution is recognized as payroll expenses.

THE CASH FLOW

The cash flow statement has been prepared according to the indirect method. Cash and cash equivalents include cash, bank deposits and other short-term liquid investments.

TAXES

The tax charge in the income statements includes both payable taxes for the period and changes in deferred tax. Under this heading is also included non-recoverable withholding tax and income tax resulting from prior year adjustments. Deferred tax is calculated at relevant tax rates on the basis of the temporary differences which exist between accounting and tax values, and any carryforward losses for tax purposes at the year-end.

Tax reduction on group contributions given and tax on group contribution received, booked as a reduction of cost price or taken directly to equity, are booked directly against tax in the balance sheet (offset against payable taxes if the group contribution has affected payable taxes, and offset against deferred taxes if the group contribution has affected deferred taxes).

Deferred tax is reflected at nominal value.

NOTE 1: REVENUES

Amounts in NOK	2022	2021

The company is obligated to have pension plans pursuant to the Mandatory Occupational Pension Act. The company has a plan satisfying the legal requirements.

Share-based payments

Options/warrants in the parent company have been granted to executive management in Norway and Sweden. On 30 June 2021, the company had granted 878 811 options to Norwegian executive employees, and 1 426 477 warrants to Swedish key employees/board members. In Norway the option agreements were signed in 2021. There has still not been signed any agreements at 31 December 2022 with the Swedish key employees/board members. Each option gives the right to subscribe for one share. The options are given to key employees at an exercise price of NOK 2.5 per share, and with an exercise period between 15 March 2022 and 15 March 2024. It is a condition that the employee has not resigned before the start of each exercise period. As at 31 December 2022, the fair value of the agreement is put at NOK 0 according to the option price model in NRS 15 A. In the option agreement there is a cash alternative. In the financial statement, the board of directors has decided to post the event most likely to be exercised.

NOTE 3: REMUNERATION TO EXECUTIVES ETC.

Remuneration CEO	
Amounts in NOK	CEO Hynion AS
Salary	1 701 146
Pension	192 510
Other remuneration	113 437
Total	2 007 092

Remuneration members of the Board	
Amounts in NOK	Hynion AS
Salary	1 029 606
Pension	112 038
Other remuneration	29 302
Total	1 170 946

The CEO is also a board member, and a board fee is paid to the chairman of the board NOK 50 000 which is paid out in 2023. The CEO has an agreement for 12 months' severance pay if the company gives the CEO notice in writing. The value of the consideration as of 31/12/2022 will amount to NOK 1,590,000. The cost to the company due to the severance in 2023, including employer's tax, will be NOK 1,814,190. The company's CEO received his written resignation on 30 January 2023.

NOTE 4: LOAN AND SECURITY TO EXECUTIVES ETC.

Neither members of the Board nor the CEO have any loan or security in Hynion AS.

NOTE 5: PENSIONS

The Group's companies in Norway, have defined contribution plans in accordance with local laws. The contribution plan covers all employees. Pension cost is 7 % of the salary between 1 G and 12 G, and 18.1 % of the salary between 7,1 G and 12 G.

NOTE 6: PROPERTY, PLANT AND EQUIPMENT

Parent Company			
Amounts in NOK	Property under construction	Machines and equipment	Total
Gross value at cost as of 01.01.2022	0	7 941 032	7 941 032

Current year write-down		-808 000	-808 000
Useful lives		3 - 15 years	

Related to the purchase of hydrogen stations at Høvik, Porsgrunn and Linde in Sweden, the company has a future obligation to remove the stations. A total of NOK 806 291 has been set aside for this purpose. The funds are listed in the balance sheet in separate bank accounts.

In connection with the purchase, NOK 150 000 was paid from Hyop AS for Hynion AS to take over their obligation for removal in Porsgrunn. This is listed as Other long-term debt. The conversion difference is due to difference exchange rate between SEK and NOK in the subsidiary Hynion Sverige AB.

NOTE 7: CONCESSIONS, PATENTS, LICENSES ETC.

NOTE 12: INVESTMENTS IN SUBSIDIARIES

Investments in subsidiaries are booked according to the cost method.

Company	Location	Ownership / voting rights	Equity per 1.1 (NOK)	Annual net loss (NOK)	Equity per 31.12 (NOK)
Hynion Sverige AB	Sweden	100 %	7 586 710	-8 160 695	27 342 656
H-of-C AS	Norway	100 %	18 736	-17 450	1 286
Total			7 605 446	-8 178 145	27 343 942

Book value in Hynion AS

Company	Amount 1.1 (NOK)	Capital contribution (NOK)	Amount 31.12 (NOK)
Hynion Sverige AB	11 868 012	27 990 882	39 858 894
H-of-C AS	30 000	0	30 000
Total	11 898 012	27 990 882	39 888 894

The capital contribution to the subsidiary in Sweden has been used for investments and operations.

Investment in the Swedish subsidiary is a long-term investment that is still being established. The public sector in Sweden has also provided public support for the construction of hydrogen stations. The board's opinion is that there is no basis for a write-down of shares in the subsidiary.

NOTE 13: CASH AND BANK DEPOSITS**Parent company**

Amounts in NOK	2022	2021
Employees' tax deduction	315 540	192 071

- 1) Lars Amnell holds 8 285 750 shares listed under Avanza Bank AB. 2 720 000 shares indirectly through the company Ami Capital and 5 565 750 shares directly.
- 2) Kurt Dahlberg holds 9 588 600 shares listed under Svenska Handelsbanken. 300 000 shares indirectly through the company Exilixi AB, 200 000 shares indirectly through the company Goldnos AB, and 9 088 600 shares are held directly.
- 3) Ulf Hafselde holds 3 090 000 shares through his 100% owned company Erikstølen Invest AS.
- 4) Bertil Rydqvist holds 1 075 000 shares listed under Nordea Bank ABP.
- 5) Slavica Djuric holds 1 468 000 shares listed under Avanza Bank and Nordea Bank ABP. 100 000 shares held indirectly through SLJ Consulting and 1 368 000 directly.

1 086 340 options/warrants have been awarded as compensation to shareholders formerly holding shares with additional voting rights (the "Compensation options"), which have been cancelled in connection with the application for listing. The compensation options (warrants for Swedish shareholders) can be exercised once the trading price of the shares in the company has increased by 100% compared to the price of the time of listing on Euronext Growth. The compensation Options/warrants carry a strike price of NOK 2.50 per share. The conditions are met, but there have been no options exercised by 31 December 2022.

Pursuant to the Rights Issue in December 2022, the Company issued 16 752 300 Units existing of 50 256 900 shares and 16 752 300 Warrants. Each Unit consists of three (3) new shares and one (1) warrant. The price per new Unit was equal to NOK 2.10 (the "Subscription Price"), corresponding to a price per share of NOK 0.70. Each warrant entails the holder to subscribe for one new share at the price of NOK 0.75 during from and including 1 May 2023 to and including 12 May 2023.

Board of directors

Name	Position	Served since	No. of shares held	Options	Warrants
Lars Amnell	Chair	3/3-2021	8 285 750	356 619	95 250
Kurt Dahlberg	Board member	28/4-2019	9 588 600	794 600	476 200

- 1) Ulf Hafselde holds 3 090 000 shares through his 100% owned company Erikstølen Invest AS.
- 2) Slavica Djuric holds 1 468 000 shares listed under Avanza Bank and Nordea Bank ABP. 100 000 shares held indirectly through SLJ Consulting and 1 368 000 directly.

For further information on options/warrants for Key employees, see note 2.

NOTE 16: SHAREHOLDERS EQUITY

Parent company

Equity changes during the year	Share capital	Share premium	Total equity
Equity 01.01.2022	279 205	60 331 540	60 610 745
Loss of the year		-21 014 261	-21 014 261
Increase share capital	251 285	34 928 545	35 179 830
Issue costs		-6 529 599	-6 529 599
Equity 2022	530 490	67 716 225	68 246 715

Group

Equity changes during the year	Share capital	Share premium	Total equity
Equity 01.01.2022	279 205	56 038 974	56 318 179
Loss of the year		-29 192 407	-29 192 407
Increase share capital	251 285	34 928 546	35 179 830
Issue costs		-6 529 599	-6 529 599
Conversion difference		-74 240	-74 240
Equity 2022	530 490	55 171 274	55 701 763

The conversion difference is due to difference exchange rate between SEK and NOK in the subsidiary Hynion Sverige AB. P&L transactions in the subsidiary Hynion Sverige AB have been converted to average exchange rates in 2022 from SEK to NOK.

NOTE 17: PUBLIC SUBSIDIARIES

Hynion Sverige AB was granted public subsidies in 2022 to build 2 hydrogen stations in Sweden. The total amount granted was SEK 61 400 000. Of this, the company received SEK26 487 960 in 2022. The rest will be received in 2023, SEK19 600 000 in May, and SEK15 312 040 in September. Of the grant received in 2022, SEK 17 536 844 has been used to purchase modules for the hydrogen station. The grant is settled against activated purchases. The acquisition and the subsidy used will therefore not appear in the accounts. The remainder of the grant received in 2022 SEK 8 951 116 converted to NOK 8 461 490, is entered in the balance sheet as an advance on grant, entered under other short-term liabilities in the balance sheet.

Auditor's Report

To the Annual Shareholders' Meeting of Hynion AS

Independent auditor's report

Opinion

We have audited the financial statements of Hynion AS (the company), showing a loss of NOK 21 014 261 in the financial statements of the company and a loss of NOK 29 192 405 in the financial statements of the Group.

The financial statements comprise:

- The financial statements of the company, which comprise the balance sheet as at 31 December 2022, and the income statement, statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and
- The financial statements of the group, which comprise the balance sheet as at 31 December 2022, and the income statement, statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion:

- The financial statements comply with applicable statutory requirements,
- The financial statements give a true and fair view of the financial position of the company as at 31 December 2022, and of its financial performance and its cash flows for the year then ended in accordance with the Norwegian Accounting Act and accounting standards and practices generally accepted in Norway, and
- The financial statements give a true and fair view of the financial position of the group as at 31 December 2022, and of its financial performance and its cash flows for the year then ended in accordance with Norwegian Accounting Act and accounting standards and practices generally accepted in Norway.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company and the Group as required by relevant laws and regulations in Norway and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The Board of Directors and the Managing Director (management) are responsible for the information in the Board of Directors' report and the other information presented with the financial statements. Our opinion on the financial statements does not cover the information in the Board of Directors' report or the other information presented with the financial statements.

In connection with our audit of the financial statements, our responsibility is to read the information in the Board of Directors' report and for the other information presented with the financial statements. The purpose is to consider if there is material inconsistency between the information in the Board of Directors' report and the other information presented with the financial statements and the financial statements or our knowledge obtained in the audit, or otherwise the information in the Board of Directors' report and for the other information presented with the financial statements otherwise appears to be materially misstated. We are required to report that fact if there is a material misstatement in the Board of Directors' report and the other information presented with the financial statements. We have nothing to report in this regard.

Based on our knowledge obtained in the audit, in our opinion the Board of Directors' report

- is consistent with the financial statements and
- contains the information required by applicable statutory requirements

Responsibilities of management for the Financial Statements

The Board of Directors and the Managing Director (management) are responsible for the preparation of financial statements that give a true and fair view in accordance with the Norwegian Accounting Act and accounting standards and practices generally accepted in Norway, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting insofar as it is not likely that the enterprise will cease operations.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
