

Q4 2022
Earnings Presentation
1 March 2023

Disclaimer

This presentation does not constitute an offering of securities or otherwise constitute an invitation or inducement to any person to underwrite, subscribe for or otherwise acquire securities in Hurtigruten Group AS (the "Company") or any affiliated company thereof.

This presentation may include certain forward-looking statements, estimates, predictions, influences and projections relating to the business, financial performance and results of the Company and its affiliates and/or the industry in which it operates. Forward-looking statements concern future circumstances and results and other statements that are not historical facts, sometimes identified by the words "believes", "expects", "predicts", "intends", "projects", "plans", "estimates", "aims", "foresees", "anticipates", "targets", and similar expressions. These forward-looking statements may or may not prove to be correct and no representation is made as to the accuracy of such statements, estimates, projections, predictions and influences. Forward-looking statements involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future. The information and opinions contained in this presentation are subject to change without notice. Except as required by law, the Company assumes no obligation to update any forward-looking statements or to conform these forward-looking statements to its actual results.

This presentation contains alternative performance measures that are not required by or presented in accordance with IFRS. These non-IFRS measures may not be comparable to other similarly titled measures of other entities and should not be considered in isolation or as a substitute for the Company's operating results as reported under IFRS. Definitions and calculations of alternative performance measures are presented in the Company's interim reports.

This presentation is being made only to, and is only directed at, persons to whom such presentation may lawfully be communicated. The release, publication or distribution of this presentation in certain jurisdictions may be restricted by law, and therefore persons in such jurisdictions into which this presentation is released, published or distributed should inform themselves about, and observe, such restrictions.

Q4 2022 Business Update

Hurtigruten Group saw continued improvement in financial performance in Q4 with a significant increase in booking momentum

Q4 Operational Update

- Hurtigruten Norway had 57% occupancy in the quarter and continued the trend of strong yield development achieving a gross yield which was 41% higher than Q4 2019.
- The environmental upgrades to the fleet progressed further in Q4 and are running on schedule.

- Hurtigruten Expeditions saw the full resumption of operations, but still some operational challenges due to the last covid restrictions which was lifted in January 23
- Good yield development, but headwinds from cost inflation and the strong dollar.

- Hurtigruten Destinations continued good development in Hurtigruten Destinations in a quarter which is considered low season on Svalbard
- Strong development in future bookings

Q4 Financial Update

- Total revenue in the fourth quarter of 2022 was EUR 135 million for Hurtigruten Group, which was an increase of **80%** compared to Q4 2021 driven by the return to operations of the entire Hurtigruten Group fleet and a strong growth in the gross yield of 32% vs Q4 2021 and 44% vs Q4 2019.
- Normalized adjusted EBITDA in the fourth quarter of 2022 of EUR 0.5 million with operational cash flow for Hurtigruten Group in the fourth quarter being negative EUR 5.9 million
- Cruise operating costs were higher than expected in Q4 driven by i) passenger cost related to flight disruptions ii) continued high marine gas oil prices and iii) strong USD vs. EUR which influenced predominantly dollar-based cost base in Hurtigruten Expeditions. Direct costs were also impacted by the higher price of long-haul flights to South America. We see cost levels are coming down in Q1 and also the reversal of the strong dollar vs. EUR rate

Bookings Development

- The first quarter of 2023 sees a good traction and as of 27th February, the Q1 bookings are at EUR 132 million which is 9% higher compared to the same period three years ago (Q1 2020 -pre-Covid-19) and 88% higher compared to the booked revenue achieved in the first quarter of 2022
- Over the last 30 days we have achieved FY23 net new bookings of EUR 57 million which is 185% higher than the same period last year for 2022

Get ready to explore

- The category king of expedition cruises, taking adventure travellers to unique and inspirational destinations off the beaten path. Currently offering sailings to 40+ countries, from Antarctica and Greenland to Galapagos and Cape Verde
- Operates 7 expedition vessels, three of which are battery-powered hybrid-electric cruise vessels

Hurtigruten Expeditions - Strong revenue and yield growth compared to same period last year

Normalized Operational Revenues¹ (EURm)

Normalized Vessel Contribution before SG&A¹ (EURm)

Reported gross ticket yield (EUR/PCN)²

Occupancy³ (%)

- MS Fram, MS Fridtjof Nansen and MS Roald Amundsen all returned to Antarctica in the middle of October. MS Otto Sverdrup and MS Maud continued sailing on the Norwegian Coast. MS Santa Cruz II continued her voyages in the Galapagos
- Q4 2022 occupancy levels of 57% with a gross ticket yield increase of 19 % compared to same period last year
- Slight reduction in occupancy and yield for Q4 2022 compared to Q3 2022 explained by October which is partly a repositioning month for the three ships performing Antarctica sailings.
- Overall financial performance in the fourth quarter compared to fourth quarter 2021, is reflecting the full resumption of operations since the Covid outbreak

1) Normalized numbers have been adjusted for cost and revenue items which is deemed extraordinary, exceptional, unusual or non-recurring. No normalizations were included for the period Q1 2020 - Q4 2021.

Overview of normalization items can be found in the appendix.

2) Gross ticket yield is calculated as (total operational revenues – contractual revenue – goods revenue) / total passenger cruise nights.

3) Occupancy is calculated as PCN/ APCN. APCN is calculated based on capacity available for sale in the period including reductions due to Covid-19 restrictions. Covid-19 restrictions vary based on ship specification and sailing destination.

The Original since 1893

- 8 vessels sailing north and south along the scenic Norwegian coast, allowing travelers to experience the pristine Norwegian nature and culture in a comfortable and responsible manner
- Take part in a voyage that also serves local communities along the Norwegian coast, transporting goods and passengers between 34 ports from 60° to 71° North.

Hurtigruten Norway - Continued strong yield development in Q4 2022

Normalized Operational Revenues¹ (EURm)

Normalized Vessel Contribution before SG&A¹ (EURm)

- All ships in operation with an occupancy of 57% which is higher than Q4 2021
- Continued strong yield achieved in Q4 2022 of EUR 312 per cruise night compared to EUR 223 per cruise night in pre-covid 19 period Q4 2019
- Cost levels in Q4 influenced by high oil prices and general price increase
- During 2022, HRN initiated its environmental ship upgrade program to cut CO2 and NOX emissions. Three ships finished their upgrades in 2022, the next ships due to finish are MS Kong Harald and MS Polarlys in March 2023

Reported gross ticket yield (EUR/PCN)²

Occupancy³ (%)

1) Normalized numbers have been adjusted for cost and revenue items which is deemed extraordinary, exceptional, unusual or non-recurring. No normalizations were included for the period Q1 2020 - Q4 2021. Overview of normalization items can be found in the appendix.

2) Gross ticket yield is calculated as (total operational revenues – contractual revenue – goods revenue) / total passenger cruise nights.

3) Occupancy is calculated as PCN/ APCN. APCN is calculated based on capacity available for sale in the period including reductions due to Covid-19 restrictions. Covid-19 restrictions vary based on ship specification and sailing destination.

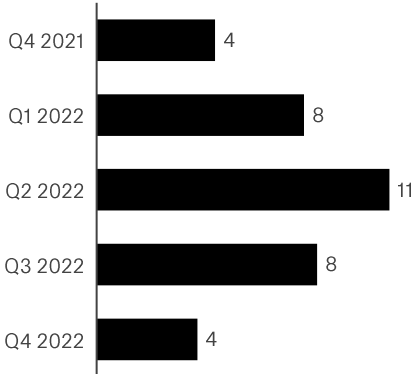

The adventure starts here

- With three year-round hotels and a broad excursion offering, Hurtigruten Destinations is the **unchallenged destination owner in the Svalbard archipelago**
- The archipelago has been developed from remote mining communities into a top-tier adventure destination, and has experienced **stable yield and occupancy growth** over the past 20 years

Hurtigruten Destinations - Continued positive development with Q4 being a low season on Svalbard

Normalized Revenues¹ (EURm)

Normalized Contribution before SG&A¹ (EURm)

- Q4 is considered a low season on Svalbard and the key focus has been on keeping costs down and at the same time prepare for the main season in 2023 from February to September
- Radisson and Funken Lodge open for guests during the quarter, while other competitors close their hotels.
- Less flights during the dark-season results in less tourists in Longyearbyen in the period from October-January.
- Positive booking momentum for 2023

Reported Revenue per Room night (EUR/RN)²

Occupancy (%)

1) Normalized numbers have been adjusted for cost and revenue items which are deemed extraordinary, exceptional, unusual or non-recurring. Overview of normalization items can be found in the appendix.
 2) Reported revenue per room night is calculated as total room revenue/total room nights for Radisson and Funken.

Pre booking levels are in a good position driven by shortened booking horizons with a good development in booking momentum

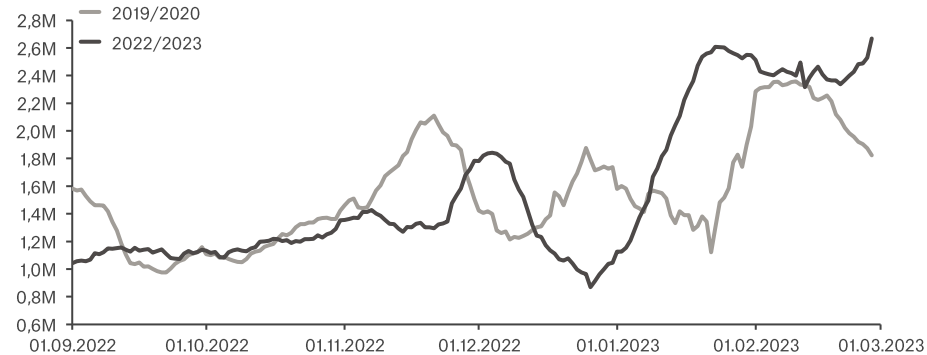

Gross revenue (EURm)

Gross Commercial Yield per cruise night (EUR)*

Average rolling 14-day daily new sales 2019/2020 vs. 2022/2023 (EURm)

- As of 27th of February, bookings for 2023 are at EUR 432 million. Q1 2023 has bookings as of 27th of February of EUR 132 million which is 88% higher than same time last year
- Significant uptick in Average rolling 14 days bookings 2023 driven by very good sales momentum in January and February
- We see a strong development in yield across all destinations, departure times and business units, which is in line with the Company's yield expectations for 2023 and with the strategy of driving yield rather than chasing short term occupancy

Q4 2022 Financial Update

Positive revenue growth with return to full operations and a strong rebound in financial performance is expected over the next 12 months

Normalized Revenues¹ (EUR m)

EBITDA Margin²

Normalized adjusted EBITDA¹ (EUR m)

CFO as % of Revenue

Reported Cash Flow from Operations³ (EUR m)

Note: All numbers presented are based on Hurltigruten Group AS on a consolidated basis as of quarter end 31.12.2022. Numbers may not add to annuals due to rounding.

1) Normalized numbers have been adjusted for cost and revenue items which is deemed extraordinary, exceptional, unusual or non-recurring. No normalizations were included for the period Q1 2020 - Q4 2021.

2) Calculated as Normalized adjusted EBITDA / Normalized Revenues

3) Reported cash flow from operations for periods prior to Q1 2022 has been adjusted to not include changes in restricted funds related to travel guarantees which prior to Q1 2022 was reported as operating cash flow.

Normalised SG&A expenses development Q3 2021 through Q4

2022 – Quarterly SG&A to be in the range of EUR 35-40m pending on campaign activities

SG&A

Commentary

- Total SG&A in 2022 ran at an average of approximately EUR 40 million per quarter as the reorganization of the business and establishment of HQ2 in London to drive the future growth in the business
- SG&A has increased compared to pre-pandemic levels driven by i) increase long term growth in B2C ii) strategic investments in growth markets like the US iii) investment in digital inhouse development resources improving both digital B2C and B2B capabilities which is expensed rather than capitalized iv) increased marketing spend to drive brand awareness v) Organizational split in to Hurtigruten Norway and Hurtigruten Expeditions
- We expect the SG&A cost base stabilize into FY23 with several cost saving measures already being implemented
- We expect run rate SG&A to be in the range of EUR 35-40 million per quarter pending on the level of marketing funds spent in the quarter
- We have initiated a group wide cost efficiency program to drive down costs and increase the efficiency throughout the organization

Note: SG&A has been normalised through run rate cost

Proforma liquidity resources of approx. EUR 104 million post the transaction

Change in free liquidity (excl. restricted cash) – Q3 2022 to Q4 2022

Commentary

EURm

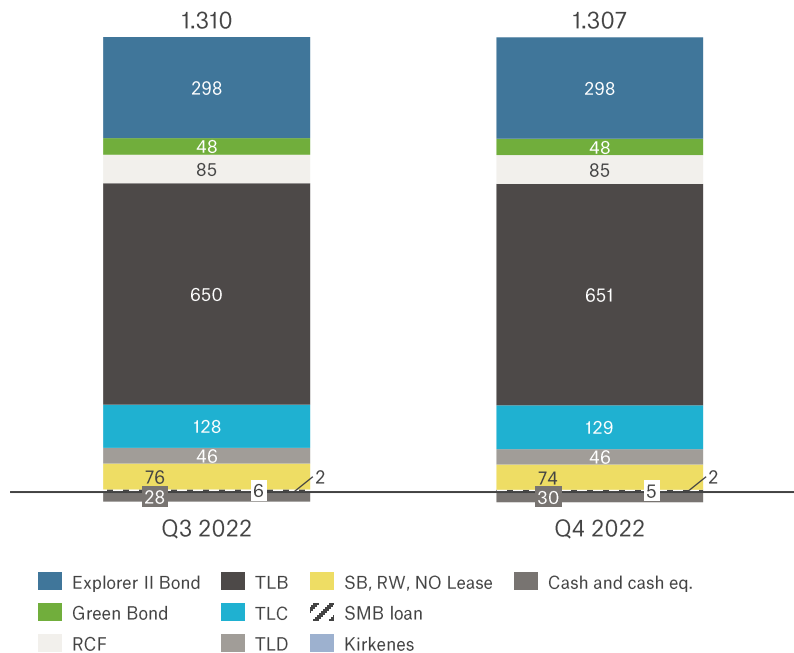

- As of end of Q4 2022 Hurtigruten Group had EUR 27 million of available liquidity and proforma available liquidity of approximately EUR 104 million including the net proceeds from the Transaction announced on the 21st of February
- The Company targets maintaining reasonable liquidity headroom at any point in time to the EUR 15 million minimum liquidity covenant under the senior secured listed bond.
- Net Capex amounted to EUR 18 million (Gross EUR 29 million) in the quarter mainly related to the upgrade program to the HRN fleet and scheduled dockings
- Due to timing of interest payments and capex, and the operational cash cycle, liquidity is typically expected to be lowest during Q1 of any given financial year with working capital low point in end of Q3

Net debt as of Q4 2022 at EUR 1.3 billion

- Refinancing of the June 23 maturities secured

1) If unanimous consent of RCF lender not received, RCF will be converted into a TLB instrument and receive the same terms as TLB.

Q4 2022 Summary

Q4 2022 Summary - Positive normalised adjusted EBITDA driven by strong growth in gross yield and with a significant increase in booking momentum

- 1) Revenue for the Q4 2022 period was EUR 135.5 million, which was an increase of 80% compared to Q4 2021 even with MS Kong Harald and MS Nordkapp being in dock to receive hybridization upgrades and MS Spitsbergen being in Warm layup during the fourth quarter due to covid restrictions in Dakar
- 2) Hurtigruten Group had an average occupancy of 57% compared to 41% in Q4 2021 this highlights significant organic growth potential for the Hurtigruten Group. Occupancy in Hurtigruten Expeditions was still influenced by the covid-19 testing regimes at embarkation and travel disruptions in South America experienced in the quarter. The last elements of the covid-19 testing regimes in Hurtigruten Expeditions was removed in Q1 23.
- 3) Normalized adjusted EBITDA in the fourth quarter of 2022 was positive EUR 0.5 million a significant improvement compared to Q4 2021
- 4) We continue to see a positive booking momentum and as of 27th of February 2023, the Company has made a total of EUR 432 million in new sales YTD which is up 9% vs. the same period last year. Over the last 30 days we have booked EUR 57 million of revenue for 2023 which is 185% higher compared to the same period last year for 2022. As of 27th of February 2023, 1H bookings for Hurtigruten Group are at EUR 254 million which is 30% higher compared to the EUR 196 million same time last year for 1H 2022.
- 5) On the 21st of February we announced a refinancing transaction which gives Hurtigruten Group a solid financial position and includes a capital contribution for our shareholders of EUR 80 million which shows the strong support we have from our shareholders

Note: All numbers presented are based on Hurtigruten Group AS on a consolidated basis. All numbers are reported numbers unless stated.

- Contribution is defined as EBITDA contribution before SG&A, specifically calculated as revenue – total direct costs – total cruise operating expenses.
- Normalized adjusted EBITDA is calculated as Reported EBITDA excluding other gains and losses adjusted for cost and revenue items which is deemed extraordinary, exceptional, unusual or non-recurring. SG&A is not allocated to the business segments Hurtigruten Norway, Hurtigruten Expeditions and Hurtigruten Destinations, and these costs are reported within the “Group Functions, Other and Eliminations” segment.
- Total cash including restricted cash,
- Excluding IFRS 16 debt of EUR 15.8 million at year-end 2020, EUR 74 million in Q4 2021 and EUR 68 million per Q3 2022.

Normalization items - Q4 2022

	HRN	HRX	Total
Above normal level of cancellations	324	2 507	2 831
Covid related costs	198	401	599
Positive effect from fuel hedging	1 332	1 437	2 769
Project costs	1 258	1 819	3 076
Capex items whihc has been expensed	3 061	-	3 061
Q4 Marketing one offs which will not recur in 2023	6 275	2 678	8 953
Other	215	5 177	5 392
Total adjustments	12 662	14 019	26 681

- Q4 2022 cancellations, covid costs, marketing one off projects and derivative losses were higher than initially anticipated with the one-off items mainly being the following
 - i. Hedge effect of bunker fuel expenses as the bunker fuel costs reflect the spot price of bunker fuel at the time of purchase
 - ii. Above normal cancellation levels mainly related to flight disruptions and positive Covid-19 tests
 - iii. Covid-19 related operating cruise costs (testing, temporary higher level of medical capacity)
 - iv. One off costs which are of capex nature related to digital projects and the conversion projects for the Hurtigruten Norway fleet which has been expensed over the P&L
 - v. Marketing spend related to one-off projects

Definitions

- **Passenger cruise nights (“PCNs”)**, measurement of guest volume, representing the number of guests onboard the ships and the length of their stay.
- **Available passenger cruise nights (“APCNs”)**, which is a measurement of capacity and represents the aggregate number of available berths on each of the ships (assuming double occupancy per cabin), multiplied by the number of operating days for sale for the relevant ship for the period.
- **Occupancy rate**, PCNs for the relevant period as a percentage of APCNs for the period.
- **Gross revenues**, ticket revenues, revenues from flights, hotels, transportation, food, beverage, shop and excursions as well as other passenger revenues, including car transportation, travel insurance and retained deposits in cases of cancellations.
- **Net revenues**, Gross ticket revenues less commissions and costs of goods for flights, hotels, transportation, food, beverage, shop and excursions as well as other passenger services, including travel insurance.
- **Gross revenues per PCN**, Gross ticket revenues divided by PCNs.
- **Net revenues per PCN**, which represents Net ticket revenues divided by PCNs.
