

Net Zero USV survey for Stromar Offshore Wind

Argeo wins survey contract with Stromar offshore wind, a consortium of global leaders in offshore wind.

- Unique Argeo Argus USV project
- Stromar, a consortium made up of Ørsted, Renantis and BlueFloat Energy
- Cost efficient and environmentally friendly solutions to the offshore wind market
- Scheduled for Q3 2023

“

Ensuring Stromar leads the way in floating wind as part of the transition to renewable energy is of paramount importance. We're determined that every aspect contributes to our Net Zero future, even from survey stage to demonstrate our commitment to a truly green future. *Project Director, Nicholas Ritchie*
