

TEKNA HOLDING ASA: 2022 Annual Report

11.4.2023 07:00:00 CEST | Tekna Holding ASA | Annual financial and audit reports

ARENDAL, NO / SHERBROOKE, QC. 11 April 2023 - Tekna (OSE: TEKNA), the world-leading provider of advanced materials to industry, today published its 2022 Annual Report and Sustainability Report.

Enclosed is a pdf version of the 2022 Annual Report for Tekna Holding ASA. The Annual Report contains the Sustainability Report for 2022. The Annual Report is also available on our website, www.tekna.com (Investor Relations section). The company publishes its annual financial statements also in European Single Electronic Format (ESEF), available as an attachment to this release.

Luc Dionne, CEO of Tekna, commented:

“I am pleased to present Tekna's Annual Report for 2022. It was a dynamic year for Tekna, marked by the uplisting of the company to the main list on the Oslo Stock Exchange, several major contracts awarded and further confirmation of the leading position the company is developing in the market. Despite capacity constraints in production, sales continue to grow during the year. The company sold out all its production capacity for prime products in additive materials, indicating the market's dynamic and shifting nature. Tekna's backlog of orders increased by 64% to CAD 25 million at the end of 2022. We are entering the new year with the largest backlog we have ever had for both of our business segments. This provides a solid foundation going into 2023.”

“At Tekna, we are committed to sustainability, and we are pleased to report that our energy intensity per kg produced is 20 percent better than the 2019 baseline and will continue to improve in 2023. We have committed to ambitious targets and have a plan to deliver on these. We have also signed the UN Global Compact in 2022, showing our commitment to this area. Our vision is to help change the world, one particle at a time.”
