No. of operational stations	14	13	8%
RTFC price (average)	24.8	15.2	62%

² Average daily dispensed volume x 365 days

¹ Oct-Sep represents the same year's Non-Crop (NC) prices before switching to next year's NC prices again from October, i.e. Oct'24 represents 2025 NC RTFC prices, but Sep'24 represents 2024 NC RTFC prices. ReFuels expects to have sold all RTFCs generated in 2024 by the latest in Jan/Feb 2025. All prices are based on the transfer and payment of RTFCs during Q1 of the year after the obligation year ends, i.e. 2025 RTFCs are transferred and paid during Q1 '26. Earlier transfers and payment of RTFCs usually result in a 0.1p/RTFC/month discount.
