

ZITON

**Interim report
Q2 2025**

ZITON A/S
CVR 24620417
Bygholm Søpark 21e
DK – 8700 Horsens

Highlights of the report

Highlights of Q2 2025

- EBITDA declined by EUR 3.2m from EUR 19.6m in Q2 2024 to EUR 16.4m in Q2 2025. The decline was mainly due to an 10-year classing of J/U WIND PIONEER during Q2 2025, an increase in OPEX for J/U WIND ENERGY, and higher project-related expenses from growth in providing full-service solutions as well as an increase in SG&A.
- On 7 January 2025, the closing of the transaction was completed whereby Macquarie Asset Management ("Macquarie"), via Macquarie European Infrastructure Fund 7, acquired all issued and outstanding shares of Zappy TopCo ApS and its wholly-owned subsidiary ZITON A/S.
- On 4 June 2025, ZITON made a voluntary prepayment of 10% of the then outstanding nominal amounts of the first lien loan and the ESG loan, totalling EUR 24.3m, of which EUR 0.5m was a call premium.
- Our KPI guidance for 2025 is unchanged:
 - **Weighted average utilisation rate.** We expect a utilisation rate in the range of 95-100%.
 - **EBITDA.** We expect EBITDA to be in the range of EUR 60-65m.
 - **Cash flow from operating activities.** We expect cash flows from operating activities to be in the range of EUR 58-63m.
 - **CAPEX.** We expect CAPEX to be in the range of EUR 24-28m including CAPEX for the leg extension on J/U WIND ENERGY.

Information in this report

The information provided in this interim report is submitted in accordance with the Bond Agreements on FRN ZITON A/S EUR 150,000,000 callable bonds 2023/2028 (ISIN NO0012928185).

As required under the Bond Agreement, the consolidated financial statements of ZITON A/S are prepared in accordance with IFRS with Euro as the reporting currency.

This report has not been reviewed or audited by the company's auditors.

Disclaimer

This report may contain certain forward-looking statements relating to the business, financial performance and results of the Company and/or the industry in which it operates. Although the Company believes that these assumptions were reasonable when made, the statements provided in this report are solely opinions and forecasts which are subject to uncertainty, risks, contingencies and other important factors which are difficult or impossible to predict and are beyond the Company's control. A multitude of factors may cause actual results to differ significantly from any anticipated development expressed or implied in this document. No representation is made that any of these forward-looking statements or forecasts will come to pass or that any forecast result will be achieved, and you are cautioned not to place any undue reliance on any forward-looking statement.

Management Review

Macquarie Asset Management's acquisition of ZITON and capital structure

On 7 January 2025, the closing of the transaction was completed whereby Macquarie Asset Management ("Macquarie"), via Macquarie European Infrastructure Fund 7, acquired all issued and outstanding shares of Zappy TopCo ApS and its wholly-owned subsidiary ZITON A/S ("the Transaction").

The following improvements have been made to ZITON's capital structure. The first lien bond (ISIN NO0012928185), listed on Oslo Børs, the senior secured ESG loan and the Super Senior Working Capital Facility are retained in the capital structure.

As part of the transaction Macquarie purchased the second lien bond (ISIN NO0012928169). At the end of April 2025, the second lien bond was repaid and converted into a shareholder loan provided by MEIF 7 Wind Services Bidco ApS at a reduced interest rate.

On 4 June 2025, ZITON made a voluntary prepayment of 10% of the then outstanding nominal amounts of the first lien loan and the ESG loan, totalling EUR 24.3m, of which EUR 0.5m was a call premium. The terms of the bond agreements for the first lien loan and the ESG loan include a clause on voluntary partial redemption, allowing ZITON, from the issue date, in each twelve-month period, to redeem up to 10.00% of the then outstanding nominal amount at a price of 102 per cent of the nominal amount.

Contract developments

There has been no changes to contracts since the publication of the interim report for Q1 2025. Below is an overview of the current contract status.

Time charter agreement for J/U WIND ENTERPRISE
J/U WIND ENTERPRISE went on time charter with Siemens Gamesa at the end of March 2021. The current time charter runs from 21 June 2025 to 31 December 2029 at improved day rates compared to the original time charter agreement. Therefore, the profitability of J/U WIND ENTERPRISE has increased from mid-2025. Siemens Gamesa holds an option for early termination of the contract after 1 January 2027 against a one-off compensation payment.

Time charter agreement for J/U WIND ENERGY
J/U WIND ENERGY went on time charter with Siemens Gamesa at the end of February 2024 with a duration of six years, thus the contract expires in February 2030. For this time charter contract, Siemens Gamesa does not hold any options for early

termination. Extension of the legs of the vessel has been investigated and may be completed during the low season 2025/26.

As customary for time charter contracts, Siemens Gamesa will pay a fixed time charter rate and pay for variable OPEX-related costs during the tenure of the time charters.

In addition to the Siemens Gamesa contracts, ZITON's current contracts within offshore wind O&M includes:

- On 22 December 2022, RWE and ZITON entered into a strategic agreement which will provide RWE with priority services and quick response to avoid unscheduled downtime on their offshore wind turbines.
The framework agreement has a duration of four years and allows RWE to utilise multiple vessels across ZITON's versatile fleet dedicated to O&M services. The agreement involves that RWE makes a minimum annual commitment for utilisation of ZITON's fleet of EUR 10.7m.
- On 1 May 2019, Ørsted and ZITON signed a three-year framework agreement covering nine of Ørsted's offshore wind farms. The contract has been extended and now expires on 31 December 2025.
- On 18 December 2019, Vestas Offshore Wind ("Vestas") and ZITON signed a two-and-a-half-year framework agreement. ZITON's sister company DiscoveryCo ApS has entered into a time charter agreement with Vestas for the vessel J/U WIND DISCOVERY.
- ZITON was second supplier to Vattenfall until the beginning of 2025. This meant that if the first supplier declined to carry out a specific component replacement, ZITON could take on the task if we had available capacity. A new deal is currently under negotiation, and ZITON is expected to continue to operate as second supplier with limited replacements carried out for Vattenfall.

Market activity

The activity level for regular major component replacements showed strong growth in Q2 2025 compared to the same quarter the year before. The growth was seen in both the below 6 MW segment and the 6-10 MW segment. Our analysis shows that the increase is driven by turbines reaching an age of

6–10 years and beyond, where wear and tear increasingly set in and drive an increase in the need for major component replacements. Turbines below 6 MW have an average age of around thirteen years and turbines between 6–10 MW have an average age of around five years. Therefore, the majority of the current market for major component replacements is for turbines below 6 MW which can be serviced by our smaller vessels J/U WIND, J/U WIND PIONEER and J/U WIND SERVER. During Q2 2025, we have seen strong growth in the number of replacements completed in the 6–10 MW segment, mainly due to improved availability of vessels to service this market segment. During the next six years, we expect the market for 6–10 MW turbines to increase significantly. This market can be serviced by our vessels J/U WIND ENTERPRISE and J/U WIND ENERGY as well as J/U WIND DISCOVERY, which is owned by ZITON's sister company DiscoveryCo ApS.

In addition, serial defects on major components will further increase the activity level for major component replacements. The market for blade campaigns and other larger major component campaigns is more erratic, and initiation of such larger projects is subject to uncertainty and wider competition.

Vessel operations

J/U WIND ENERGY went on time charter with Siemens Gamesa at the end of February 2024. J/U WIND ENERGY and J/U WIND ENTERPRISE both continue to operate on time charter with Siemens Gamesa. During Q2 2025, J/U WIND, J/U WIND PIONEER and J/U WIND SERVER mainly operated under framework agreements with RWE, Ørsted, SSE Renewables and other tenders attained.

J/U WIND SERVER completed her 10-year classing and was out of operations for half of Q1 2025.

J/U WIND PIONEER completed her 10-year classing during the summer 2025 and was out of operations for six weeks during Q2/Q3 2025.

Competitive environment

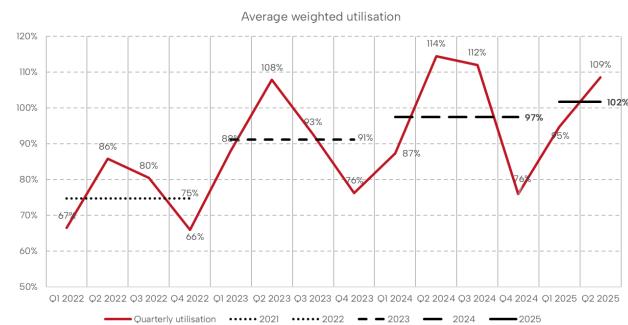

ZITON is the clear market leader within dedicated O&M services for major component replacements at offshore wind farms. Competitors include Harren Group, who operates two O&M dedicated jack-up vessels, Gulf Marine Services who have won an O&M time charter tender for Ørsted with a single vessel, Van Oord who is the first supplier on a four-year framework agreement with Vattenfall and operates two vessels regularly used for O&M, and DEME who mainly utilise one vessel in the 6–10 MW segment. Further, Cadeler owns three vessels dedicated to O&M. In addition, Cadeler and other companies

within transport and installation ("T&I") occasionally use T&I vessels in between installation projects mainly for servicing turbines in the 6–10 MW and 11–15 MW segments.

Utilisation rates

The weighted average utilisation rate for Q2 2025 was 10%, compared to a utilisation rate of 114% in Q2 2024. The reduced utilisation rate is mainly due to the regular 10-year classing of J/U WIND PIONEER during the quarter.

Our definition of financial utilisation is a simple calculation of "revenue – project related expenses" / "standard day rate for the vessel" x "no. of days in the period". We use this definition as many of our projects are offered on a fixed price basis, where neither the day rate nor the number of days used on the projects are fixed. Thus, our utilisation can be higher than 100% due to effective operations when we are able to complete projects in fewer days than expected when we carry out fixed price projects.

Note: The weighted average utilisation rate is calculated as vessel revenue and other operating income deducting project-related expenses during the quarter divided by full utilisation at standard rates of EUR 268k/day (EUR 135k/day until the end of June 2019 and EUR 185k/day until end of February 2024). Each vessel has a different weighting depending on its specifications.

Outlook for 2025

The outlook for 2025, is based on the following key assumptions:

- We expect a positive contribution from the full-year effect of Siemens Gamesa's time charter for J/U WIND ENERGY, which was initiated at the end of February 2024. However, in late 2025 the vessel may undergo a leg extension, and in relation to that, it is assumed that the day rate of the vessel will be reduced during most of Q4 2025.
- We expect a positive contribution from an increase in the day rate for J/U WIND ENTERPRISE by mid-year 2025, according to the terms of the contract extension.
- The three smaller vessels, servicing the market below 6 MW, will carry out regular major

component replacements on framework agreements and other tenders attained.

Our KPI guidance for 2025 is unchanged:

- **Weighted average utilisation rate.** We expect a utilisation rate in the range of 95–100%.
- **EBITDA.** We expect EBITDA to be in the range of EUR 60–65m.
- **Cash flow from operating activities.** We expect cash flows from operating activities to be in the range of EUR 58–63m.
- **CAPEX.** We expect CAPEX to be in the range of EUR 24–28m including CAPEX for the leg extension on J/U WIND ENERGY.

Risks and uncertainties

ZITON A/S is exposed to various risks that may be of significance to the company's future operations, results and financial position. For a description of ZITON A/S' risks, please refer to the Risk Management section on pages 54–56 and note 4.1 "Risk management" on page 110–111 of the 2024 annual report.

Financial Review

REVIEW OF THE INCOME STATEMENT

EUR'000	Q2 2025	Q2 2024	Change	YTD 2025	YTD 2024	Change
Revenue	30,161	31,007	-846	56,652	50,801	5,851
Other operating income	-	7	-7	-	7	-7
OPEX and project-related expenses	-10,549	-8,926	-1,624	-20,646	-16,885	-3,762
SG&A	-3,208	-2,518	-690	-5,926	-4,808	-1,118
EBITDA	16,404	19,571	-3,167	30,080	29,115	964
Depreciation, amortisation & impairment	-5,069	-4,985	-84	-9,952	-8,899	-1,052
EBIT	11,335	14,586	-3,251	20,128	20,216	-88
Financials, net	-7,492	-10,620	3,127	-14,913	-19,234	4,321
Income before tax	3,843	3,967	-124	5,215	982	4,233

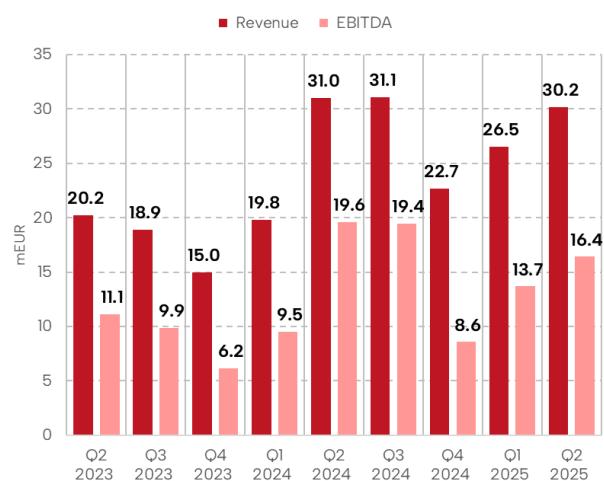

Review of the income statement for Q2 2025

The consolidated income statement for the ZITON Group showed revenue for Q2 2025 of EUR 30.2m, compared to revenue of EUR 31.0m in Q2 2024. The decline was mainly a consequence of the 10-year classing of J/U WIND PIONEER during Q2 2025, which was partly offset by revenue growth from the three smaller vessels as the market for major component replacements was strong.

Vessel OPEX and project-related costs increased by EUR 1.6m from Q2 2024 to Q2 2025. The main reason was OPEX for J/U WIND ENERGY as well as higher project-related expenses from growth in providing full-service solutions.

SG&A increased to EUR 3.2m in Q2 2025 from EUR 2.5m in Q2 2024 mainly due to the employment of additional personnel to manage the operations of J/U WIND ENERGY and future growth plans of the company.

EBITDA declined by EUR 3.2m from EUR 19.6m in Q2 2024 to EUR 16.4m in Q2 2025. The decline was mainly due to the 10-year classing of J/U WIND PIONEER during Q2 2025, an increase in OPEX for J/U WIND ENERGY, and higher project-related expenses from growth in providing full-service solutions as well as an increase in SG&A.

Depreciation, amortisation & impairment was more or less unchanged at EUR 5.1m in Q2 2025, compared to EUR 5.0m in Q2 2024.

Financials, net was an expense of EUR 7.5m in Q2 2025, compared to an expense of EUR 10.6m in Q2 2024. The reduction of financial costs was a consequence of a reduction of the loan margin by 300 basis points on the first lien loan and by 270 basis points for the ESG loan from December 2024. In addition, Euribor and Cibor rates were lower in Q2 2025 compared to the same period the year before. This was partly offset by the payment of a call premium on the voluntary prepayment of 10% of the outstanding nominal amounts on the first lien loan and the ESG loan.

Review of income statement 1H 2025

The consolidated income statement for the ZITON Group shows revenue for 1H 2025 of EUR 56.7m, compared to revenue of EUR 50.8m in 1H 2024. The increase in revenue mainly reflected that J/U WIND ENERGY went on time charter at the end of February 2024 as well as revenue growth from the three smaller vessels as the market for major component replacements was strong, although this was partly

offset by the 10-year classings of J/U WIND SERVER in Q1 2025 and J/U WIND PIONEER during Q2 2025

Vessel OPEX and project-related costs increased by EUR 3.8m from 1H 2024 to 1H 2025. The main reason was OPEX for J/U WIND ENERGY as well as growth in providing full-service solutions.

SG&A increased to EUR 5.9m in 1H 2025 from EUR 4.8m in 1H 2024 mainly due to the employment of additional personnel to manage the operations of J/U WIND ENERGY and future growth plans.

EBITDA amounted to EUR 30.1m in 1H 2025, compared to EUR 29.1m in 1H 2024. The increase was mainly due to an increase in revenue reflecting that J/U WIND ENERGY went on time charter with Siemens Gamesa at the end of February 2024, as well as improved contribution from the three smaller vessels as the market for major component replacements was strong, although this was partly offset by the 10-year classings of J/U WIND SERVER in Q1 2025 and J/U WIND PIONEER during Q2 2025.

Depreciation, amortisation & impairment was at EUR 10.0m in 1H 2025, compared to EUR 8.9m in 1H 2024. The increase was largely related to depreciation of J/U WIND ENERGY.

Financials, net was an expense of EUR 14.9m in 1H 2025, compared to an expense of EUR 19.2m in 1H 2024. The reduction of financial costs was a consequence of a reduction of the loan margin by 300 basis points on the first lien loan and by 270 basis points for the ESG loan from December 2024. In addition, Euribor and Cibor rates were lower in 1H 2025 compared to the same period the year before. This was partly offset by capitalisation on interest costs for the purchase and upgrade of J/U WIND ENERGY until the vessel became operational at the end of February 2024 and the payment of a call premium on the voluntary prepayment of 10% of the outstanding nominal amounts on the first lien loan and the ESG loan.

REVIEW OF THE BALANCE SHEET AT THE END OF Q2 2025

EUR'000	Q2 2025	Q2 2024	Change	Q2 2025	Q4 2024	Change
Assets						
Vessel, including fixtures & equipment	261,703	265,759	-4,056	261,703	264,035	-2,332

Interest cover ratio	2.19	1.89	0.30	2.19	1.92	0.27

Review of the balance sheet

The total value of the vessels (including fixtures & equipment and leased offices) amounted to EUR 261.7m at the end of Q2 2025. This compares to EUR 265.8m at the end of Q2 2024 and EUR 264.0m at the end of Q4 2024. The decline was mainly due to depreciations exceeding CAPEX during the period.

Trade and other receivables amounted to EUR 17.1m at the end of Q2 2025, compared to EUR 23.9m at the end of Q2 2024. The decline was mainly related to unusually high receivables at the end of Q2 2024.

Cash and cash equivalents amounted to EUR 3.8m at the end of Q2 2025, compared to EUR 13.5m at the end of Q2 2024 and EUR 21.9m at the end of Q4 2024. The decline in cash was due to ZITON's voluntary prepayment on 4 June 2025 of 10% of the then outstanding nominal amounts of the first lien loan and the ESG loan, totalling EUR 24.3m.

Equity was positive at EUR 24.0m at the end of Q2 2025, compared to EUR 20.0m at the end of Q2 2024 and EUR 18.9m at the end of Q4 2024. The increase was mainly due to positive net income for the periods.

ESG and first lien bond loans collectively amounted to EUR 203.7m at the end of Q2 2025, compared to EUR 239.6m at the end of Q2 2024 and EUR 233.8m at the end of Q4 2024. The change was a

consequence of the voluntary prepayment on 4 June 2025 of 10% of the then outstanding nominal amounts of the first lien loan and the ESG loan, totalling EUR 24.3m, as well as ordinary amortisation.

Shareholder loans amounted to EUR 41.4m at the end of Q2 2025 compared to EUR 35.9m for the second lien bond loan at the end of Q2 2024. At the end of April 2025, the second lien bond loan was repaid and converted into a shareholder loan provided by MEIF 7 Wind Services Bidco Aps. The change in the amount was due to the accrual of interests on the loan.

The working capital facility was EUR 2.0m at the end of Q2 2025, compared to an undrawn facility at the end of Q2 2024 and the end Q4 2024. The draw was a consequence of a restricted cash position of EUR 3.2m reserved for the possible leg extension on J/U WIND ENERGY.

Covenants

According to the terms of ZITON's bonds and loans, the liquidity covenant expired and was replaced by covenants for leverage ratio and interest cover ratio.

The leverage ratio shall be below 6.0x from year-end 2024 until the end of Q3 2025. At the end of Q2 2025, the leverage ratio was at 3.5x and therefore well below the covenant of maximum 6.0x. This was a reduction from 5.0x at the end of Q2 2024 and from 3.7x at the end of Q4 2024.

Interest cover ratio shall be above 1.25x from year-end 2024 until the end of Q3 2025. At the end of Q2 2025, the interest cover ratio was at 2.19x and therefore well above the covenant of minimum 1.25x. This was an increase from 1.89x at the end of Q2 2024 and from 1.92x at the end of Q4 2024.

REVIEW OF STATEMENT OF CASH FLOWS

EUR'000	Q2 2025	Q2 2024	Change	YTD 2025	YTD 2024	Change

Review of the cash flow statement

Cash flows from operating activities were an inflow of EUR 19.6m in Q2 2025 compared to an inflow of EUR 16.2m in Q2 2024. For 1H 2025 the cash inflow amounted to EUR 30.0m compared to an inflow of EUR 12.8m in 1H 2024. The cash flow is driven by EBITDA and working capital adjustments.

Working capital adjustments amounted to positive EUR 3.4m for Q2 2025, compared to negative EUR 3.3m for Q2 2024. For 1H 2025 the working capital adjustments amounted to EUR 0.1m compared to an outflow of EUR 16.3m in 1H 2024. The improvement was mainly related to unusually high receivables at the end of Q1 2024 and Q2 2024.

Financial payments, net amounted to EUR 5.7m in Q2 2025, compared to EUR 8.2m in Q2 2024. For 1H 2025 the financial payments amounted to EUR 11.4m compared EUR 14.5m in 1H 2024. The reduction of financial payments was a consequence of a reduction of the loan margin by 300 basis points on the first lien loan and by 270 basis points for the ESG loan, from December 2024. In addition, Euribor and Cibor rates were lower in 1H 2025 compared to the same period the year before.

Investing activities amounted to an outflow of EUR 4.0m in Q2 2025, compared to an outflow of EUR 5.0m in Q2 2024. For 1H 2025 the investing activities amounted to EUR 7.6m compared EUR 19.3m in 1H 2024. In 1H 2024, EUR 12.3m was related to the upgrade of J/U WIND ENERGY.

Financing activities amounted to a cash outflow of EUR 25.5m in Q2 2025, compared to an outflow of EUR 3.3m in Q2 2024. The outflow in Q2 2025 was mainly attributable to the voluntary prepayment of the first lien loan and the ESG loan, totalling EUR 24.3m.

Available liquidity including available drawings on our working capital facility amounted to EUR 16.8m at the end of Q2 2025, compared to EUR 20.2m at the end of Q2 2024. The reduction resulted from the voluntary prepayment of the first lien loan and the ESG loan, totalling EUR 24.3m, offset by an increase in the working capital facility from EUR 6.7m to EUR 14.9m.

STATEMENT OF CHANGES IN EQUITY

YTD 2025

EUR'000	Share capital	Attributable to owners of ZITON A/S					Non-controlling interests	Total equity
		Translation reserves	Total reserves	Retained earnings	Total			
Balance at 31 December 2024	54	-160	-160	19,014	18,907	-23	18,884	
Total comprehensive income, after tax	-	-5	-5	5,127	5,122	-0	5,121	
Balance at YTD	54	-165	-165	24,140	24,029	-23	24,006	

Share capital

At the end of Q2 2025, the share capital consisted of 400,000 shares of DKK 1 each (EUR 54k). The share capital is unchanged from last year. The company has only one class of shares owned by Zappy Topco ApS. On 7 January 2025, Macquarie Asset Management, through Macquarie European Infrastructure Fund 7, acquired all shares in Zappy Topco ApS. The ultimate controlling party of ZITON A/S after closing of the transaction is MEIF 7 Luxembourg GP S.à r.l.

Reserves

Equity reserves consist of the following:

The translation reserve comprises foreign exchange differences arising on translation of financial statements of entities that have a functional currency other than DKK and translation from the functional currency to the presentation currency.

YTD 2024

EUR'000	Share capital	Attributable to owners of ZITON A/S					Non-controlling interest	Total equity
		Translation reserves	Total reserves	Retained earnings	Total			
Balance at 31 December 2023	54	-152	-152	19,101	19,002	70	19,072	
Total comprehensive income, after tax	-	-5	-5	990	985	-11	974	
Balance at YTD	54	-157	-157	20,091	19,988	59	20,047	

Share capital

At the end of Q2 2024, the share capital consisted of 400,000 shares of DKK 1 each (EUR 54k). The company had only one class of shares owned by Zappy TopCo ApS. Permira Credit Solutions III Sub Master Euro S.à.r.l. was the controlling shareholder of ZITON A/S holding 55% of the voting shares in Zappy TopCo ApS.

Note 1 – Revenue

The internal reporting framework used for reporting on revenue and expenses to the Executive Management Team and the Board of Directors has been set up to reflect and report on jack-up vessel, ZITON Contractors A/S and Hangout A/S revenue and expenses. As all jack-up vessels including ZITON Contractors A/S and Hangout A/S operate on similar assignments, management reviews the results of the Group as a whole to assess performance. Thus, there is only one operating segment.

Revenue from customers

The group operates in northern Europe. The geographical distribution of non long-term time charter revenue is based on the country in which the wind farm is located (revenue recognised point in time). For long-term time charter contracts, the geographical distribution is based on the country in which the customer is invoiced (revenue recognised over time).

EUR'000	Q2 2025	Q2 2024	YTD 2025	YTD 2024
Non long-term time charter (revenue recognised point in time)				
United Kingdom	16,242	14,450	27,980	24,195
Denmark	1,804	4,521	4,283	7,822
Germany	-	1,518	-	1,518
Belgium	-	-	-	-
Netherlands	-	1	-	1
Ireland	-	-	-	-
Sweden	-48	-	-45	-
Total non long-term time charter	17,997	20,490	32,218	33,537
Long-term time charter (revenue recognised over time)				
Denmark	12,164	10,518	24,434	17,264
Total long-term time charter	12,164	10,518	24,434	17,264
Total revenue	30,161	31,007	56,652	50,801

During Q2 2025, sales to the largest customers, accounting for more than 10% of revenue, made up 40%, 29% and 18% of total revenue (Q2 2024: 35%, 34%, 15%, and 11%).

Leases

Where contracts are identified as a lease (long-term time charter), revenue is recognised over time on a straight-line basis over the term of the lease period.

The amount of revenue stated in the table above for both the current financial year and the comparable financial year include the agreed time charter rates earned during leases. The lease and service components are recognized as revenue under the same pattern of transfer to customers. A separate disclosure of the lease components and the service income components has not been provided as it is impracticable to establish such a disclosure.

Assessment of impairment of vessels

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. In 2024, ZITON realised a loss for the year and as a result, ZITON performed an impairment test. An impairment loss is recognised in the amount by which an asset's carrying amount exceeds its recoverable amount – measured using the higher of the fair value less cost to sell and value in use. An impairment loss is recognised if the higher of the fair value less cost to sell and value in use is less than the carrying amount of the assets.

- The value in use is calculated as the present value of total expected cash flows during the rest of the vessels' economic lives. This includes any concluded framework agreements and signed charters as well as estimated utilisation and average day rates for the "open charter periods". The estimated utilisation is based on the projected future installation of offshore turbines, the average rate at which a turbine needs assistance from a jack-up vessel in the turbine's lifetime, and ZITON's expected market share.
- Average day rates are based on estimated future market prices and/or contracts.

Hence, the exact value used to measure impairment charges is subject to some degree of uncertainty and is based on what the company believes is the best estimate of the fair value. The budget used for impairment testing is based on a five-year period, including a terminal period.

Management's assessment of indication of impairment of vessels is based on the cash-generating unit ("CGU") in which all vessels, ZITON Contractors A/S and Hangout A/S are included (jack-up vessel operating segment).

An impairment test is carried out based on value in use. The impairment test is performed by estimating the recoverable amount at value in use calculated as the present value of the total expected cash flows during the rest of the vessels' economic lives, a determined WACC of 10.3% before tax, and a growth rate in the terminal period of 0%.

The value in use was estimated to be higher than the carrying amount of EUR 261.7m. Management assesses that the long-term value at the close of the financial period exceeds the carrying amounts, and accordingly, there is no indication of impairment loss.

Note 3 – Commitments and contingencies

Since the end of 2024, no significant changes have occurred to contingent assets and liabilities other than those referred to in the annual report for 2024.

Note 4 – Related party transactions

Since the end of 2024 no significant changes have occurred to related parties or types of transactions with these parties other than what was disclosed in the annual report for 2024.

Note 5 – Subsequent events

On 7 January 2025 Macquarie Asset Management, through Macquarie European Infrastructure Fund 7, acquired all shares in Zappy TopCo ApS thereby becoming the ultimate parent of the ZITON Group effective 7 January 2025.

No other significant events have occurred between the reporting period and the publication of the interim report that have not been included and adequately disclosed in the interim report and that materially affect the income statement, balance sheet and disclosure requirements.

Note 6 – Basis of reporting

Accounting policies

Basis of consolidation

The interim report has been prepared in accordance with the international financial reporting standard IAS 34 on interim reports. No interim report has been prepared for the parent company (ZITON A/S).

The accounting policies adopted in the preparation of the interim report are consistent with those applied in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2024 except for the adoption of new standards effective as of 1 January 2025. The Group has not applied early adoption of any other standard, interpretation or amendment that has been issued but is not yet effective.

Significant estimates and assumptions

Going Concern

During 2019 to 2021, ZITON's balance sheet deteriorated as operational earnings declined as a consequence of blade campaigns that were less profitable than anticipated, and because the vessel fleet was expanded with the purchase of J/U WIND ENTERPRISE, thereby leading to sizeable interest-bearing debt compared to equity and cash flow to service the debt. In June 2023, completed refinancing of existing debt to simplify and extend its capital structure. On 7 January 2025, Macquarie Asset Management, through Macquarie European Infrastructure Fund 7, acquired all shares in Zappy Topco ApS and provided capital for ZITON's sister company DiscoveryCo ApS to purchase the vessel J/U WIND DISCOVERY.

Management assesses the entity's ability to continue as a going concern to be met and the consolidated financial statements have therefore been prepared on a going concern basis and no changes to recognition or measurement have been made.

Risks

For a description of the risks ZITON A/S is exposed to, please refer to the Risk Management section on pages 54-55 and note 4.1 "Risk management" on page 110-111 of the 2024 annual report.

Management statement

The Board of Directors and Executive Management have considered and approved the interim report for ZITON A/S for Q2 2025. The interim report has not been audited or reviewed by the company's independent auditors.

The interim report for Q2 2025 has been prepared in accordance with International Financial Reporting Standards and IAS 34 as adopted by the EU, and further disclosure requirements for issuers of bonds listed on the Oslo Stock Exchange.

In our opinion, the interim report gives a true and fair view of the ZITON's assets, liabilities, and financial position at 30 June 2025, and of the results of the ZITON's operations and cash flow from 1 January 2025 to 30 June 2025.

We further consider that the Management review gives a true and fair view of the developments in ZITON's activities and business, the results for the period and of ZITON's financial position as a whole, and a description of the most significant risks and uncertainties which ZITON faces.
