About Cambi

Cambi is a global supplier of biogas technology and solutions for wastewater treatment plants and anaerobic digestion facilities. Since 1992, Cambi has maintained market leadership through continuous innovation and a robust portfolio of proven, patented technologies. With strong project delivery and customer support capabilities, the company has delivered more than 100 well-performing installations in 28 countries on six continents.

Cambi's thermal hydrolysis process increases renewable energy output, reduces operational costs, and minimises greenhouse gas emissions. It is suitable for both new and existing anaerobic digestion sites and compatible with all biosolids outlets, including land application and thermal processes such as drying, pyrolysis, and incineration. Thermal hydrolysis is robust to regulatory changes and meets all legal requirements for sludge and waste treatment.

Cambi is listed on Euronext Growth Oslo, a multilateral trading facility in Euronext, Europe's largest stock exchange platform. Find out more at cambi.com.
