1. Risk factors

Investing in bonds issued by Olav Thon Eiendomsselskap ASA involves inherent risks. Prospective investors should carefully consider, among other things, the risk factors set out in this Base Prospectus before making an investment decision.

A prospective investor should carefully consider all the risks related to the Company and should consult his or her own expert advisors as to the suitability of an investment in bonds issued by the Company. An investment in bonds entails significant risks and is suitable only for investors who understand the risk factors associated with this type of investment and who can afford a loss of all or part of the investment. Against this background, an investor should thus make a careful assessment of the Company, its creditworthiness and its prospects before deciding to invest, including its current and future tax position. As the Company is the parent company of the Group and primarily a holding company, the risk factors for Olav Thon Eiendomsselskap ASA and the Group are deemed to be equivalent for the purpose of this Base Prospectus unless otherwise stated.

The Company believes that the factors described below represent the principal risks inherent in investing in bonds issued by the Company. It applies for all risk factors that, if materialized, and depending on the circumstances, may have an adverse effect on the Company and which may reduce anticipated revenue and profitability, ultimately resulting in a potential insolvency situation.

RISK FACTORS RELATED TO THE COMPANY

Market risk

The Group's market risk is related to the general development of the property markets, which are affected by both general macroeconomic developments and demand for commercial property as an investment object.

The market risk is related to both the development of properties' market value and the development of rental prices for retail, office and residential properties. The market value and rental price development of the properties is affected by macroeconomic variables such as changes in gross domestic product (GDP), unemployment, inflation and interest rate changes. Changes in the market's required returns used in the sale of commercial property and changes in market rents for properties have a direct effect on property values. A decline in Norwegian and Swedish economy may reduce the demand for commercial property or lease of premises in the Group's shopping centres, and lead to a decrease in the Group's rental income and property values.

Changes in the consumers shopping pattern, increase in e-commerce rather than physical retail may in the future and in the long term negatively affect the shopping centres as there may be lower trade and turnover in the shopping centres. This may adversely affect the revenue of the tenants which may affect their ability to pay rent and also the demand for leases in the Group's shopping centres may decline. The Group's shopping centres are gradually being changed in order to adapt to new consumer behavior and digitalization of the retail trade. The trend of greater differences between different segments and actors in the retail trade is expected to continue in the time ahead. The modernization of the shopping centres contributes to the overall framework conditions for shopping centre property being considered satisfactory. In 2023 the Group's Norwegian shopping centres had retail sales of NOK 56,679 million and retail sales in the shopping centres in Sweden amounted to SEK 3,904 million.

Changes in yield and market rents have a direct impact on the value of the property portfolio. The table below presents a sensitivity analysis at the balance sheet date, showing changes in fair value of owned investment properties when yield and rent levels is changed:

Financial risk

Olav Thon Eiendomsselskap's financial risk is considered mainly to be the Group's access to financing in the banking and capital markets, and the cost of that financing.

Access to financing depends on both developments in the financial markets and the Group's creditworthiness. The cost of financing depends on market interest rates and the specific credit margin the Group has to pay.

The credit margin is linked to both the Group's creditworthiness and developments in the credit market.

The Group's financial risk can in turn be divided into:

- Liquidity risk
- Interest rate risk
- Currency risk
- Credit risk

Liquidity risk

Liquidity risk is the risk that the Group may not be able to meet its financial obligations as they fall due. The liquidity risk is managed by having sufficient cash reserves in form of liquid current assets, undrawn credit facilities and un-mortgaged properties.

The Group's failure to comply with covenants under its bond issues, credit facilities or other debt financing could result in a situation of default including its bond issues which contain cross default provisions. This could lead the Group to be required to repay such borrowings before its due date.

The Group's strategy is to have sufficient cash serves to finance operations, investments and amortizations the next 12 months. However, there is no guarantee that the Group will in the future have sufficient amounts available to meet claims of creditors, including the bondholders. The Group's debt portfolio consists of long-term credit facilities with Nordic banks and direct borrowing in the capital markets in Norway and Sweden.

At the end of 2023, The Group's liquidity reserves amounted to NOK 5,382 million. The debt portfolio had an average residual term of 3.5 years and 7% of the debt is due for repayment within 1 year.

Interest rate risk

Interest rate risk arises in the short and medium term, following the part of the Company's debt which has a floating interest rate. An increase in the interest rates would increase the interest expenses and reduce the cash flow of the Group. The debt portfolio currently has a combination of floating and fixed interest rates. The Group's strategy is to have a considerable part of the debt portfolio with fixed interest rate. At the end of 2023, the Group had an average fixed-rate period of 3.5 years and a fixed-rate ratio of 59%. It is estimated that a change of 1 percentage point in interest rates would change the fair value of the portfolio by approximately NOK 550-650 million.

Currency risk

The Group has financial risk related to the exchange rate between Norwegian and Swedish kroner.

Base Prospectus

A strengthening of the Norwegian Kroner relative to Swedish kroner could imply a risk that the Group's revenue measured in NOK could decline. The major currency exposure is basically limited to the equity portion of the shopping centre investments in Sweden which will be weakened if the Norwegian kroner is strengthened. At year end 2023, the Group had a hedge ratio of 87%, which means that 87% of the Group's assets in Sweden are financed with Swedish kronor. At the end of 2023, 88% of the Group's interest-bearing debt was nominated in Norwegian kroner, with an average interest rate of 5.3%. The debt borrowed in Swedish kronor stood at 12% and had an average interest rate of 4.3%.

Credit risk

The Group's credit risk is primarily the risk of losses as a result of tenants' failure to pay the agreed rent. Olav Thon Eiendomsselskap ASA has a large number of leasing contracts, and a large portion of the tenants are international and national retail chains. The rental contracts have a balanced maturity structure, and the tenants normally provide security for their lease obligations. If the tenants fail to pay this could have a material negative impact on the Group's financial position. In recent years, rent losses have represented less than 0.5% of the Group's rental income. However, if we were to be in a situation like the Corona pandemic again it would be impossible to predict with certainty what impact such an outbreak could have on the Group's tenants and their ability to pay. There is no assurance that the Norwegian authorities will provide a support package like last time.

Operational risk

The Group's operational risk is primarily associated with the failure of employees and operational management systems to function as expected. The Group has many key employees who have substantial experience in their area of expertise. The loss of the service of any key employee without adequate replacement or the inability to attract new qualified personnel could have a material adverse effect on the business of the Group.

RISK FACTORS RELATED TO THE BONDS

Credit risk

Credit risk is the risk that Olav Thon Eiendomsselskap ASA fails to make the required payments under the bonds (either principal or interest). If the Issuer becomes subject to insolvency or is taken under public administration, by reason of actual or anticipated financial difficulties enters into debt negotiations with any of its creditors other than pursuant to the Bond Terms, admits to insolvency or if a substantial proportion of the Olav Thon Eiendomsselskap ASA assets are impounded, taken under enforcement proceedings, confiscated or subject to distraint, the Issuer may not be able to make the required payments under the Bonds. In case of a bankruptcy, the bondholder risk losing its entire investment, and settlement of any potential dividend will not take place until the bankruptcy proceedings have been completed.

Security

Olav Thon Eiendomsselskap ASA has only issued unsecured bonds, but it may issue both secured and unsecured Bonds. The level of any security will be described in the applicable Final Terms. The secured bondholders of the Issuer will have priority over the assets securing their debt. There is therefore a risk that secured bondholders may enforce their security against the interests of the bondholders in unsecured bonds, and without consulting them. Any assets remaining after repayment of the Issuer's secured debt may not be sufficient to repay all amounts owing under unsecured bonds. In general, unsecured bonds carry a higher risk than secured bonds.

Market risk

There is a risk that the value of the Bonds will decrease due to the change in market conditions for

Base Prospectus

Olav Thon Eiendomsselskap ASA. The price of a single bond issue will fluctuate in accordance with the interest rate and credit markets in general, the market view of the credit risk of that particular bond issue, and the liquidity of this bond issue in the market. In spite of an underlying positive development in Olav Thon Eiendomsselskap's business activities, the price of a bond may fall independent of this fact. Bond issues with a relatively short tenor and a floating rate coupon rate do however in general carry a lower price risk compared to bonds with a longer tenor and/or with a fixed coupon rate.

Liquidity risk

Liquidity risk is the risk that a party interested in trading bonds in the Bond Issue cannot do it because nobody in the market wants to trade the bonds. The liquidity depends on among other the investors' interest in the bond market in general and particularly in the Issuer as property player with operations within shopping centre and commercial properties. Missing demand of the bonds may incur a loss on the bondholder.

Sustainable financing

Olav Thon Eiendomsselskap ASA has not issued any so-called "GSSS" bonds (Green, Social, Sustainability, Sustainability-Linked) as of the date of this Base Prospectus but may in the future. If Olav Thon Eiendomsselskap ASA were to issue GSSS bonds, these would be structured in accordance with the Issuer's relevant framework for sustainable financing. There are however no reservations as to whether this will meet each individual investor's investment criteria and each investor will have to make its individual assessment of the criteria.

OTHER STATEMENTS FOR THE COMPANY

Financial statements and trend information

In November 2023 Olav Thon Eiendomsselskap ASA issued NOK 600 million in new senior unsecured bonds with 5.25 years tenor and ISIN NO0013076323. In February 2024 Olav Thon Eiendomsselskap ASA issued a tap issue of NOK 200 million in this bond issue and also issued NOK 800 million in a new 5.25-year senior unsecured bond issue. Other than this, there is no significant change in the financial position of the Group which has occurred since the end of the last financial period for which either audited financial statements or interim financial statements have been published. Furthermore, there has been no material adverse change in the prospects of the Company since the date of the last published audited financial statements, and there is no significant change in the financial performance of the Group since the end of the last financial period for which financial information has been published to the date of this Base Prospectus.

Increased geopolitical uncertainty, continuously high inflation levels and sharp policy rate rises are contributing to persistent uncertainty regarding economic development both in Norway and globally going forward. Other than this, there are no known trends, uncertainties, demands, commitments or events that are reasonably likely to have a material effect on the Company's prospects for at least the current financial year.

Base Prospectus

Material contracts

There are no material contracts that are not entered into in the ordinary course of the Company's business, which could result in any group member being under an obligation or entitlement that is material to the Company's ability to meet its obligation to security holders in respect of the securities being issued.

Legal and arbitration proceedings

There are no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the Company is aware), during a period covering at least the previous 12 months which may have, or have had in the recent past, significant effects on the Company's and/or Group's financial position or profitability.

10. Documents on display

For the term of the Base Prospectus the following documents, where applicable, may be inspected:

- the up to date memorandum and articles of association of the Company;
- all reports, letters, and other documents, valuations and statements prepared by any expert at the Company's request any part of which is included or referred to in the Base Prospectus.

The documents may be inspected at the Company's website: www.olt.no.

11. Financial instruments that can be issued under the Base Prospectus

The Base Prospectus, as approved in accordance with the EU Prospectus Regulation 2017/1129, allows for Bonds to be offered to the public or admitted to trading on a regulated market situated or operating within any EEA country.

This chapter describes the types of financial instruments that can be linked to this Base Prospectus. A Bond is a financial instrument as defined in Norwegian Securities Trading Act's (Verdipapirhandellovens) § 2-2.

11.1 SECURITIE TYPE

Bonds are debt instruments issued by the Issuer pursuant to the applicable Bond Terms, including any Additional Bonds.

The Bonds are electronically registered in book-entry form with the central securities depository (CSD). Any restrictions on the free transferability of the securities will be specified in the Final Terms.

11.2 THE BONDS TERMS AND CONDITIONS

11.2.1 Bond Terms and Legislation

The Bond Terms will be entered into between the Issuer and the Bond Trustee. The Bond Terms regulates the Bondholder's rights and obligations in relations with the issue. The Bond Trustee enters into the agreement on behalf of the Bondholders and is granted authority to act on behalf of the Bondholders to the extent provided for in the Bond Terms.

By virtue of being registered as a Bondholder (directly or indirectly) with the CSD, the Bondholders are bound by the Bond Terms and any other Finance Document, without any further action required to be taken or formalities to be complied with by the Bond Trustee, the Bondholders, the Issuer or any other party.

Information regarding bondholders, bondholders' meeting and the Bondholder's right to vote are described in the Bond Terms clause 6 and 7. Information regarding the role of the Bond Trustee will be described in the Bond Terms clause 8.

The Bond Terms will be attached to the Final Terms for each Bond issue and will be available through the Issuer's website: www.olt.no.

Olav Thon Eiendomsselskap ASA is subject to the laws of Norway, including the Public Limited Companies Act. The Bond Terms shall be governed by and construed in accordance with Norwegian law.

11.2.2 Outstanding bonds

The bond issues may either be an open bond issue or closed for increasing the outstanding amount. Outstanding Bonds means any Bonds not redeemed or otherwise discharged. The Initial Bond Issue and Maximum Issue Amount will be specified in the applicable Final Terms.

If Maximum Issue Amount is applicable the Issuer may subsequently issue Additional Bonds on one or more occasions (each a "Tap Issue") until the Nominal Amount of all Additional Bonds plus the Initial Bond Issue equals in aggregate the Maximum Issue Amount. The Issuer may, upon written

Base Prospectus

confirmation from the Bond Trustee, increase the Maximum Issue Amount. Tap Issues must take place no later than five Business Days prior to the Maturity Date.

11.2.3 Payments in respect of the Bonds

On the Repayment Date the Issuer shall pay in respect of each Bond the Nominal Amount at a price equal to the Redemption Price, unless otherwise stated in the Bond Terms, to the Bondholders. The Repayment Date will be specified in the applicable Final Terms.

The Issuer may have the option to early redeem the Bonds (Call). The terms for early redemption will be specified in the applicable Final Terms.

The Bondholders may also have the right to require that the Issuer purchases all or some of the Bonds held by that Bondholder (Put). The specific terms will be specified in the applicable Final Terms.

The Bonds will either be fixed rate bonds or floating rate bonds. On each Interest Payment Date the Issuer shall in arrears pay the accrued Interest Rate amount to the Bondholders. The specific terms will be specified in the applicable Final Terms.

Matured interest and matured principal will be credited each Bondholder directly from the CSD. Claims for interest and principal shall be limited in time pursuant the Norwegian Act relating to the Limitation Period Claims of May 18 1979 no 18, p.t. 3 years for interest rates and 10 years for principal.

11.2.4 Bonds with fixed rate

Bonds with a fixed interest rate shall bear interest at the percentage (%) set out in the Final Terms. The Outstanding Bonds will accrue interest at the Interest Rate on the aggregate Nominal Amount for each Interest Period, commencing on and including the first date of the Interest Period (or the Issue Date, for the first Interest Period), and ending on but excluding the last date of the Interest Period.

Interest shall be calculated on the basis of a 360-day year comprised of twelve months of 30 days each and, in case of an incomplete month, the actual number of days elapsed (30/360-days basis), unless:

- i) the last day in the relevant Interest Period is the 31st calendar day but the first day of that Interest Period is a day other than the 30th or the 31st day of a month, in which case the month that includes that last day shall not be shortened to a 30-day month; or
- ii) the last day of the relevant Interest Period is the last calendar day in February, in which case February shall not be lengthened to a 30-day month.

The Interest Rate and the Interest Payment Dates will be specified in the applicable Final Terms.

11.2.5 Bonds with floating rate

Bonds with floating rate shall bear interest at a rate per annum equal to the Reference Rate + Margin as set out in the Final Terms. If the Interest Rate becomes negative, the Interest Rate shall be deemed to be zero.

The Outstanding Bonds will accrue interest at the Interest Rate on the aggregate Nominal Amount for each Interest Period, commencing on and including the first date of the Interest Period (or the Issue Date, for the first Interest Period), and ending on but excluding the last date of the Interest

Base Prospectus

Period. The Interest Rate shall be adjusted by the Bond Trustee on each Interest Quotation Date during the term of the Bonds.

Interest shall be calculated on the basis of the actual number of days in the Interest Period in respect of which payment is being made divided by 360 (actual/360-days basis).

The Reference Rate, Margin, Interest Period and the current Interest Rate will be specified in the applicable Final Terms.

11.2.6 Use of proceeds

The Issuer will use the net proceeds from the issuance of the Bonds for its general corporate purposes. The Issuer may also use the net proceeds for other purposes.

The specific use of proceeds including the net proceeds from the issue will be specified in the applicable Final Terms.

The Issuer may issue so-called "GSSS" bonds (Green, Social, Sustainability, Sustainability-Linked). If Olav Thon Eiendomsselskap ASA were to issue GSSS bonds, these would be structured in accordance with the Issuer's relevant framework for sustainable financing that will be available through the Issuer's website: www.olt.no. The specific link will be published in the applicable Final Terms together with the second opinion.

11.2.7 Status

The Issuer's payment obligations under the Bond Terms shall rank ahead of all subordinated payment obligations of the Issuer and shall rank at least pari passu with all the Issuer's other obligations, save for (i) secured obligations to the extent they are secured and (ii) obligations which are mandatorily preferred by law.

If other statuses, it will be specified in the applicable Final Terms.

11.2.8 Security

The Bonds may either be unsecured or secured. The level of any security will be described in the applicable Final Terms.

11.2.9 Approvals

The specific Bond issues will be subject to approval by the Issuer's Board. The date of the decision will be stated in the Final Terms.

The Base Prospectus has been approved by Finanstilsynet, as the competent authority in accordance with the EU Prospectus Regulation 2017/1129.

The applicable Final Terms will be submitted to Finanstilsynet – prospekter@finansstilsynet.no - for information in connection with an application for listing of a new Bond issue or a Tap Issue in an already listed Bond.

11.2.10 Fees, Expenses and Tax legislation

The prospectus fee for the Base Prospectus including a template for the Final Terms is NOK 98,000. In addition, there will be a listing fee for listing of the Bonds in accordance with the current price list of the Exchange. The listing fees will be specified in the Final Terms.

Base Prospectus

Any public fees payable in connection with the Bond Terms and fulfilling of the obligations pursuant to the Bond Terms shall be covered by the Issuer. The Issuer is not responsible for reimbursing any public fees levied on the trading of Bonds. The Issuer is responsible for withholding any withholding tax imposed by relevant law. At the date of this Base Prospectus, there is no withholding tax on bonds in Norway.

The tax legislation of the investor's Member State and of the Issuer's country of incorporation may have an impact on the income received from the securities.

11.2.11 Rating

The Issuer has been assigned a Baa2 long-term issuer rating from Moody's Investor Service Limited ("Moody's"). The outlook on the rating is stable.

Moody's Global Long-Term Rating Scale is scaled from Aaa which are judged to be of the highest quality, subject to the lowest level of credit risk, to C which are the lowest rated and are typically in default, with little prospect for recovery of principal or interest. Obligations rated Baa are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics. The modifier 2 indicates a mid-range ranking.

Moody's is established in the European Union and are registered under Regulation (EC) No. 1060/2009 (as amended) (the "CRA Regulation") and are on the list of registered credit rating agencies published on ESMA website: <https://www.esma.europa.eu/supervision/credit-rating-agencies/risk>⁴. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the Rating Agency at any time.

11.3 DEFINITIONS

This section includes a summary of the definitions set out in any Bond Terms as well as certain other definitions relevant for the Prospectus. If these definitions at any point in time no longer represents the correct understanding of the definitions set out in the Bond Terms, the Bond Terms shall prevail.
