

## Objective

The Euronext® Green Planet E index tracks the performance of the top 50 stocks based on their free float market capitalisation with the highest Environmental performance score included in the Euronext Eurozone 300 index. The Environmental score is provided by Moody's ESG. Constituents are reviewed quarterly, and weighted based on their normalized Environmental performance score. The index serves as an underlying for structured products, funds and exchange traded funds.

## Investability

Stocks are screened to ensure liquidity to ensure that the index is investable.

## Transparency

The index rules are available on our website. Euronext acts as Supervisor. All our rulebooks can be found on the following webpage: <https://live.euronext.com/en/products/indices/indices-documents-by-family>.
