

## Description

The Index is designed to reflect the performance of bonds issued by the government of Italy and listed on MTS. The index methodology involves selecting fixed-coupon, EUR-denominated bonds with maturities between 10 and 15 years, and adhering to specific size criteria, as detailed in the relevant sections of the methodology document.

## Historical Performance

## Index Risk and returns Characteristics

| Euronext MTS EGB       | %       |              |                    | Risk Return Ratio |
|------------------------|---------|--------------|--------------------|-------------------|
|                        | Returns | Ann. Returns | Ann. Std Deviation |                   |
| *EUR RETURNS (%)       |         |              |                    |                   |
| YTD                    | 4.86    | -            | -                  | -                 |
| 3 Month                | 1.28    | -            | -                  | -                 |
| 1 Year                 | 15.72   | 15.68        | 8.46               | 1.85              |
| 5 Years                | -8.16   | -1.69        | 11.09              | -0.15             |
