

Objective

The Euronext® Sustainable Euro 120 index consists of companies included in the Eurozone Equities Universe, covering the 500 issuers amongst the largest free-float market capitalisations in the Eurozone. Companies may be excluded if their level of commitment is insufficient with regard to their overall score or their score in one of six key areas reviewed in the Equities methodology or are subject to serious, proved, or recurrent controversies. Then 120 highest ranking companies are selected according to their overall Equities score. The index is Non-Market capitalisation weighted, weighting are based on the overall Equities scores. The index serves as an underlying for structured products, funds and exchange traded funds.
