

Euronext® Europe 500

Objective

The Euronext® Europe 500 tracks the performance of a portfolio of 500 stocks in Europe, ranked by their free float market capitalization. Constituents are reviewed on a quarterly basis and their weights are reset based on their free float market capitalization at the quarterly rebalances. The index serves as an underlying for structured products, funds and exchange traded funds.

Investability

Stocks are screened to ensure liquidity to ensure that the index is investable.

Transparency

The index rules are available on our website. Euronext acts as Supervisor. All our rulebooks can be found on the following webpage: <https://live.euronext.com/en/products-indices/index-rules>.
