

Oslo Børs Benchmark

Objective

The Oslo Børs Benchmark Index is an investible index which include the most traded and largest shares listed on Oslo Børs. It is a semiannually revised free float adjusted index with changes implemented after the market close of the third Friday of March and September. In the period between the review dates the number of shares for each security is fixed with exception of adjustments for corporate actions with priority for existing shareholders. The OSEBX index is adjusted for dividend payments. The index serves as an underlying for structured products, funds, exchange traded funds and futures.

Investability

Stocks are screened to ensure liquidity and selected and free float weighted to ensure that the index is investable.

Transparency

The index rules are available on our website. All our rulebooks can be found on the following webpage:
