CAC® SBT 1.5 Index

Index	**CAC® SBT 1.5 Index**
Benchmark	**SBF® 120 Index**

Objective

The CAC® SBT 1.5 Index is a free float market capitalisation weighted index that reflects the performance of companies with approved Science Based Targets 1.5°C on Scope 1 & 2 and below 2°C on Scope 3. The index also excludes companies involved in controversial activities, tobacco, controversial weapons, thermal coal or assessed Non-Compliant with regards to the UN Global Compact principles. The index is powered by SBTi, a partnership between CDP, the United Nations Global Compact, World Resources Institute (WRI) and the World Wide Fund for Nature (WWF). The index serves as an underlying for structured products, funds, exchange traded funds, options and futures. The index rules are available on our website. Euronext acts as Supervisor. All our rulebooks can be found at:
https://live.euronext.com/en/products-indices/index-rules.

This ESG Report provides information on ESG factors aggregated at the index level within the framework of the Benchmark Regulation (BMR), the Sustainable Finance Disclosure Regulation (SFDR) and the European Union Taxonomy Regulation. The metrics on ESG factors in this ESG Report are provided by ISS ESG, updated quarterly, and are described at:

ISS ESG Corporate Rating provides highly relevant, material and forward-looking environmental, social and governance (ESG) data and performance assessments. The overall analysis is graded on a twelve-point scale from 4(A+) where the company shows excellent performance to 1(D-) where the company shows poor performance or fails to demonstrate any commitment to appropriately address the topic. The rating grasps ESG risks, opportunities and impact along the entire corporate value chain, including a dedicated SDG-based component measuring positive and negative impact of products and services as well as integrating the existence and severity of controversies and violations of global norms in the topic-specific and overall assessment. Drawing on a pool of more than 700 indicators developed in house with clearly defined performance expectations and scoring models, ISS ESG sector specialists along with a dedicated in-house team of methodology experts select a set of about 100 criteria for each industry.
Performance data on more than 30 ESG topics available across all industries and based on in-depth analysis of various factors :
