The Euronext External Data Providers Methodologies document gives a detailed background on various scoring methodologies.

Quarterly Review

Companies being on the Alarm Bell list of Equileap will be excluded from the current universe.

Step 3: Selection Ranking

Annual review

The eligible Companies are ranked by decreasing order on the Equileap Scorecard as assigned by Equileap. In case of an equal score the Company with the highest free float market capitalisation will rank higher.

The Euronext External Data Providers Methodologies document gives a detailed background on various scoring methodologies.

Quarterly Review

The ranking is not applicable for the quarterly review

Step 4: Selection of constituents at the reviews

Annual review

The 100 highest ranking eligible Companies in terms of Equileap Scorecard are selected.

Quarterly Review

Current constituents that fail to meet the eligibility screenings as defined at the Quarterly Review will be removed from the Index.

2.3 PERIODICAL WEIGHTING UPDATE

Weighting method

The index is Free Float Market Capitalization weighted.

The Weighting Factors are explained in the following paragraphs.

Number of shares

At each review, the number of shares will be updated in line with the number of shares of the constituents in the starting index Universe, Euronext Eurozone 300, at the Review Cut-Off date, taking into account adjustments due to Corporate Actions.

Free Float factor

At each review, the Free Float Factor will be updated in line with the Free Float factor of the constituents in the starting index Universe, Euronext Eurozone 300, at the Review Cut-Off date.

Capping Factor

A maximum weighting of 10% is applied to each index constituent at the reviews. The assessment and new capping coefficients are based on the Review Weighting Date.
