2.1 REVIEW FREQUENCY AND RELEVANT DATES

Review frequency: Semi-Annually

Review Effective Date: After the market close of the third Friday of March and September

Review Cut-Off Date: After the market close of the penultimate Friday of February and August

Review Announcement Date: At least six trading days before the Review Effective Date.

Review Weighting Date: Three trading days before the Review Effective Date.

Review Weighting Announcement Date: Two trading days before the Review Effective Date.

2.2 REVIEW SELECTION

Step 1: Index Universe

Index Universe definition

The Index Universe consists of the Companies included in the Euronext Developed Europe Total Market index that are incorporated in the European Economic Area (EEA) at reviews. At reviews means included in the Index Universe after the Review Effective Date.

Step 2: Eligibility screening at reviews

Step 2.1: Liquidity Screening

From the Index Universe Companies with a **3-month Average Daily Traded Value** (ADTV) of at least 2 million EUR up to and including the Review Cut-off Date are eligible.

Step 2.2: Product involvement Screening

Companies that breach any of the following thresholds are not eligible. Note that companies not covered by ISS-ESG are also not eligible.

Exclusion topic	Description	ISS-ESG Field Name
Controversial Weapons	<p>Companies flagged as "RED" on the following weapons, as determined by ISS, are excluded: biological weapons, chemical weapons, Anti-Personnel Landmines, cluster munitions.</p> <p>Only involvement flagged as 'Involvement in munition' are monitored</p>	<p>BiologicalWeaponsOverallFlag ChemicalWeaponsOverallFlag APMinesOverallFlag ClusterMunitionsOverallFlag = RED</p>

Step 2.3: Thematic Screening

Companies that generate at least 50% of their revenues from one of the ten themes that have been defined and mapped to the Factset RBICS activities listed in Annex A are eligible:

- Aerospace & Defence
- Financials
- Energy Production & Distribution
- Power Grid & Equipment
- Infrastructure
- Logistics
- Food Security
- Pharma & Chemicals
- Semiconductors
- Software

Step 3: Selection Ranking

No ranking is applied.

Step 4: Selection of constituents at the reviews

All eligible companies are selected.

2.3 PERIODICAL WEIGHTING UPDATE

Weighting method

The index is Free Float Market Capitalisation weighted.

The Weighting Factors are explained in the following paragraphs.

Number of Shares

At each review, the number of shares included in the index will be updated with the number of shares listed on the Review Cut-Off Date.

Free Float Factor

The Free Float Factor is determined based on the Review Cut-Off Date.

Capping Factor

The Capping Factors are determined such that, the weight of each of the ten themes equals to 10%. Within each theme, Companies are weighted in proportion to their Free Float Market Capitalization.

The Capping Factors are determined based on the closing prices of the Review Weighting Date.

3.2 BASE CURRENCY

The Base Currency of this index family is Euro.

3.3 PUBLICATION

The opening level is calculated using the last known prices of traded constituents or in the case of constituents that have non-traded, halted or suspended status, the previous day reference prices or estimated prices (for IPOs, buyouts and swap offers).

The opening Index level is disseminated at the same time as the first Index level.

The Index is calculated based on the most recent prices of transactions concluded on the main markets in each of the countries that are included in the Index. The level of the Index is in principle published every 15 seconds. The Index is calculated from 09:00 hours until EU Markets stop regular daytime trading on the days when the Euronext Markets are open for trading.

The closing level is the last level disseminated on the trading day.
