### 2.2 REVIEW SELECTION

#### Step 1: Index Universe

##### Index Universe definition

The Index Universe consists of the companies included in the Euronext Eurozone 300 index; at reviews this means included after the Review Effective Date.

#### Step 2: Eligibility screening at reviews

At reviews the companies with a 1 year average daily Turnover below 10 million euros are not eligible.

#### Step 3: Selection Ranking

Companies within the Index universe that fulfil the eligibility screening are ranked by Free Float Market Capitalisation

#### Step 4: Selection of constituents at the reviews

The 80 highest ranking Companies are selected

### 2.3 PERIODICAL WEIGHTING UPDATE

#### Weighting method

The index is Non-Market Capitalisation weighted, based on Equal Weight.

The Weighting Factors are explained in the following paragraphs.

#### Number of shares

The Number of Shares will be calculated such that each Company will have an equal weight in the Index. The Number of Shares will be rounded to the nearest whole number.

The Number Of Shares are determined based on the closing prices of the Companies to be included in the Index on the Review Weighting Date.

**Free Float factor**

The Free Float Factor is not applicable for the weightings of this Index Family.

**Capping Factor**

The capping Factor is not applicable for the weightings of this Index Family.

#### 3.2 BASE CURRENCY

The Base Currency of this index family is Euro.

#### 3.3 PUBLICATION

The index is calculated based on the most recent prices of transactions concluded on the main markets in each of the countries that are included in the index. The level of the index is in principle published every 15 seconds. The index is calculated from 09:00 hours until Euronext Markets stop regular daytime trading on the days when Euronext Markets are open for trading.

The official opening level is the first level published after a share price is available for all constituents. Index levels published before the official opening level is published are considered pre-opening index levels.

If, for whatever reason, share prices are not available for all constituents five minutes after Euronext Markets (as defined in the Euronext harmonised rule book) started regular daytime trading, the official opening level will be published as soon as the companies whose share prices are available of the current trading day represent at least 80% of the value of the index at the close of the previous trading day.

The closing level is the last level disseminated on the trading day.
