Version	Effective date	New or changed parts	Reference/announcement
21-01	15-12-2021	restyled version in view of newly published Calculation and Corporate Actions rulebooks	
21-01a	15-12-2021	correction: selection should be based on sector normalised ESG score instead of ESG score	
22-01	08-09-2022	Addition of Review Weighting Date	EIA 2022-318
22-02	21-09-2022	Textual updates on Review Frequency and Relevant Dates	

2. INDEX REVIEWS

2.1 REVIEW FREQUENCY AND RELEVANT DATES

Review frequency:	Quarterly
Review Effective Date:	After the close of the Wednesday following the third Friday of March, June, September and December.
Review Cut-Off Date:	After the market close of the penultimate Friday of February, May, August and November.
Review Announcement Date:	At least five trading days before the Review Effective Date.
Review Weighting Date:	Six trading days before the Review Effective Date.
Review Weighting Announcement Date:	Five trading days before the Review Effective Date.

2.2 REVIEW SELECTION

Step 1: Index Universe

Index Universe definition

The Index Universe consists of the Companies included in the SBF 120[®] index; at reviews this means included after the Review Effective Date.

Step 2: Eligibility screening at reviews

From the Index Universe, the 60 Companies with the highest Free Float Market capitalisation that have a Market of Reference Euronext Paris are eligible.

Subsequently these 60 largest Companies are screened on UN Global Compact criteria, Companies who do not communicate and/ or do not comply with UN Global Compact principles as determined by Moody's ESG Solutions are not eligible.

Step 3: Selection Ranking

The eligible Companies are ranked by decreasing order on the sector normalised ESG score as assigned by Moody's ESG Solutions. In case of an equal score the Company with the highest free float market capitalisation will rank higher.

The Euronext ESG Providers Methodologies document gives a detailed background on various scoring methodologies.

Step 4: Selection of constituents at the reviews

The 30 highest ranking eligible Companies in terms of Moody's ESG Solutions sector normalised ESG score are selected.

2.3 PERIODICAL WEIGHTING UPDATE

Weighting method

The index is Non-Market Capitalisation weighted, based on Equal Weight.

The Weighting Factors are explained in the following paragraphs.

Number of shares

The Number of Shares will be calculated such that each Company will have an equal weight in the Index. The Number of Shares will be rounded to the nearest whole number.

The Number Of Shares are determined based on the closing prices of the Companies to be included in the Index on the Review Weighting Date.

Free Float factor

The Free Float Factor is not applied for this Index Family.

Capping Factor

The Capping Factor is not applied for this Index Family.

3.2 BASE CURRENCY

The Base Currency of this index family is Euro.

3.3 PUBLICATION

The index is calculated based on the most recent prices of transactions concluded on the main markets in each of the countries that are included in the index or in the case of constituents that have non-traded, halted or suspended status and that haven't been open for trading, the previous day reference prices. The level of the index is in principle published every 15 seconds. The index is calculated and disseminated from 09:00 hours until Euronext Markets stop regular daytime trading on the days when Euronext Markets are open for trading except on days when all markets that are included in the index are closed.

The official opening level is the first level published after a share price is available for all constituents. Index levels published before the official opening level is published are considered pre-opening index levels.

If, for whatever reason, share prices are not available for all constituents five minutes after Euronext Markets (as defined in the Euronext harmonised rule book) started regular daytime trading, the official opening level will be published as soon as the companies whose share prices are available of the current trading day represent at least 80% of the value of the index at the close of the previous trading day.

The closing level is the last level disseminated on the trading day.

4. ESG DISCLOSURES

EXPLANATION OF HOW ESG FACTORS ARE REFLECTED IN THE KEY ELEMENTS OF THE BENCHMARK METHODOLOGY	
Item 1. Name of the benchmark administrator.	Euronext Paris
