2. INDEX REVIEWS

2.1 REVIEW FREQUENCY AND RELEVANT DATES

Review frequency: semi-annually

Review Effective Date: After the market close of the last trading day of May and November.

Review Cut-Off Date: The market close on the last day in April and October.

Review Announcement Date: At least two days before the Review Effective Date.

Review Weighting Announcement Date: Two days before the Review Effective Date.

2.2 REVIEW SELECTION

Step 1: Index Universe

Index Universe definition

The Index Universe consists of all companies included in the French Equitics Universe – covering the major largest free-float market capitalizations in France.

Continuous eligibility screening

For this index no specific continuous eligibility requirements apply.

Step 2: Eligibility screening at reviews

Moody's ESG Solutions may exclude companies if:

- Their level of commitment is insufficient with regard to their overall score or their score in one of six key areas reviewed in the Equitics methodology (please refer to the Euronext ESG Providers Methodologies for more details).
- They are subject to serious, proved, or recurrent controversies; seriously implicated in recent allegations which remain unresolved; or, face recent condemnation to which the company fails to provide corrective measures, or adopts an attitude of denial.

The index does not exclude companies on the basis of values or ethical based assessment, unless a company has a product or activity which is prohibited by law or international conventions.

Step 3: Selection Ranking

Moody's ESG Solutions assesses and rates the performances of companies according the Equitics® methodology based on 38 criteria, divided in to six key areas of corporate environmental, social and governance responsibility, namely:

- Environment.
- Human Rights
- Human Resources

- Community Involvement.
- Business Behaviour
- Corporate Governance

Overall score

Each issuer is assigned an overall Equitics score out of 100 which is a weighted and consolidated score of all sustainability factors in a given sector.

Step 4: Selection of constituents at the reviews

Euronext Sustainable France 20 is composed of the 20 highest-ranking companies in the Index Universe.

2.3 PERIODICAL WEIGHTING UPDATE

Weighting method

The index is Non-Market Capitalisation weighted, based on Equitics scores.

The Weighting Factors are explained in the following paragraphs.

Number of shares

The new weightings are calculated such that each constituent's weight reflects the score of the company divided by the total sum of the scores of all components.

The Number Of Shares are determined based on the closing prices of the Companies to be included in the Index on the Review Cut-Off Date.

Free Float factor

The Free Float Factor is not applicable for the weighting of this Index Family.

Capping Factor

A maximum weighting of 10% is applied to each index constituent at the reviews. The assessment and new capping coefficients are based on the Review Cut-Off Date.
