## Editorial

Activity across our Warrants & Certificates markets in Feb 2012 continued on the downward trend seen at the end of 2011. The uncertain market environment continues to discourage investments from retail investors and certainly helps to explain the downturn in activity in this segment.

As such, **value traded** only reached **€1,468 billion**, **-5%** compared to Jan 2012 and **-26%** compared to Feb 2011, and the **number of trades** did not exceed **353k**, **-4%** compared to Jan 2012 and **-15%** compared to Feb 2011.

A positive note came from the listing activity with **5,697 new listings** in the month, **+10%** compared to Jan 2012 and **+49%** compared to Feb 2011. As in previous months, **products in stock** continue to show a strong performance, with a total of **23,171 products at the end of Feb 2012**, **+4%** compared to Jan 2012 and **+24%** compared to Feb 2011.

The ranking of issuers by value traded of respective products continues to be led by **RBS** with **30.6%** market share, followed by **Commerzbank** with **15%** market share, having gained 2 places in the rank, relegating **Société Générale** and **ABN** to the 3<sup>rd</sup> and 4<sup>th</sup> places respectively. Market shares of **BCP**, **BNP**, **CITI** and **Unicredit** also showed

gains in the month, **+0.2%**, **+0.4%**, **+2.2%** and **+0.4%** respectively.

**Bonus products** continue to rise, reaching **1.8%** market share in value traded across all product types, while the product spectrum is still dominated by open-end Leverage KO products, followed by Indexation and Leverage KO products. Plain Vanilla Warrants are slowly finding their way up in the market share after a significant drop in market share in the second half of 2011.

As for type of underlying, **indices** remain down, dropping past **50%** market share in value traded, while on the other hand **single stocks** are heading upwards, reaching **21.6%**. The popularity of **leverage indexes** remains solid, accounting for **22.6%** of the total traded value on W&C traded on the Paris segment. Traction on products based on currencies is also growing.

Looking at the countries of the underlying, **France** topped **34.8%** value traded market share, overtaking **the Netherlands**, which has recently been at the top of the leaderboard consistently. Other positive changes were observed on **Global** and **United States** underlyings, whose value traded market shares rose to **16.7%** and **8.0%** respectively.
