NYSE Euronext refers to NYSE Euronext and its affiliates and references to NYSE Euronext in this publication include each and any such company as the context dictates. NYSE EuronextSM, Euronext®, trackers®, are registered marks of NYSE Euronext.

Editorial

Thanks to the new Issuer and Liquidity Provider fee structure of Warrants & Certificates, since the beginning of the year the number of new listings has risen significantly. Nearly 7,000 new products were listed in March 2013, an increase of almost 30% compared to the monthly average of 2012. 60% of these new products were listed on NYSE Euronext Paris. In terms of value traded however, Amsterdam stays ahead with over 53%.

Leveraged KO Open-End BEST products are gaining more market share. In March of last year the percentage of value traded in these products was only 2.7%. On year later, these products gathered nearly 12% of the value traded on Warrants & Certificates. The 'classic' Leveraged KO Open-End products have gone down from 55% to 44% during the same period, while retaining their position of most traded product type.

In March 2013 another Issuer, BNP Paribas, has started trading their products during the Extended Trading Hours in Paris, from 8:00 to 18:30 hours.

To promote and support responsible investment (RI), NYSE Euronext and Vigeo have launched a range of indices focusing on the three pillars of RI: the environment, social issues and governance. Several Warrants & Certificates Issuers have already shown an interest in issuing products on these new indices. The ETP team, together with the Index Designers are at your disposal for more information on these indices and the possibility to use these underlyings for new products.

After the Retail Advisory Committee in Paris, NYSE Euronext Amsterdam and Brussels have organised their first RAC on March 21 and 22. Several banks and brokers were invited to have a round table discussion on the projects NYSE Euronext is working on, as well as the changes in European Legislation (MIFID II, MIFIR, FTT). Both sessions were a success. The general feedback was positive and helpful and will be taken into account for the next Committees.

From a technology point of view, several new functionalities have been added to Plug & Clear. It has become much more efficient for Issuers to increase / decrease the number of securities, to delist, to buy-back, and more.

	NYSE Euronext Amsterdam	NYSE Euronext Brussels	NYSE Euronext Lisbon	NYSE Euronext Paris	NYSE Euronext Markets
